this book introduces readers to all the necessary components and knowledge to  
start being a vital part of the iot revolution the author discusses how to create  
smart iot solutions to help solve a variety of real problems coverage includes the  
most important aspects of iot architecture the various applications of iot and the  
enabling technologies for iot this book presents key iot concepts and  
abstractions while showcasing real case studies the discussion also includes an  
analysis of iot strengths weaknesses opportunities and threats readers will  
benefit from the in depth introduction to internet of things concepts along with  
discussion of iot algorithms and architectures tradeoffs case studies include  
smart homes smart agriculture and smart automotive

a comprehensive and accessible introduction to the development of embedded  
systems and internet of things devices using arm mbed designing embedded  
systems and the internet of things iot with the arm mbed offers an accessible  
guide to the development of arm mbed and includes a range of topics on the  
subject from the basic to the advanced arm mbed is a platform and operating  
system based on 32 bit arm cortex m microcontrollers this important resource  
puts the focus on arm mbed nxp lpc1768 and frdm k64f evaluation boards nxp  
lpc1768 has powerful features such as a fast microcontroller various digital and  
analog i os various serial communication interfaces and a very easy to use based  
compiler it is one of the most popular kits that are used to study and create  
projects frdm k64f is relatively new and largely compatible with nxp lpc1768 but  
with even more powerful features this approachable text is an ideal guide that is  
divided into four sections getting started with the arm mbed covering the basics  
advanced topics and case studies this getting started guide offers a clear

introduction to the topic contains a wealth of original and illustrative case studies includes a practical guide to the development of projects with the arm mbed platform presents timely coverage of how to develop iot applications designing embedded systems and the internet of things iot with the arm mbed offers students and r d engineers a resource for understanding the arm mbed nxp lpc1768 evaluation board
