if you've ever driven down the entire length of Aurora Blvd in Cubao or any regular in-city route for that matter you would know how jeepneys bring a whole new meaning to the word disruptive they snake through traffic at full throttle and screech to a full stop all while incessantly honking cutting corners and negotiating with passengers to scoot over and make room so more passengers can board most private car owners included will find jeepneys annoyingly frustrating i am a church worker see and i try to keep my cussing at a level minimum but when i am sharing the road with jeepney drivers all bets are off i scream and all hell breaks loose from my mouth the object of irritation would be the jeepney and its driver the apparent lack of consideration for law-abiding motorists like me the blatant disregard for traffic rules and the thorough abandonment of all good manners and right

conduct on the road so it seems you see jeepneys ferry tired day laborers students public school teachers taho vendors rank and file employees fast food servers strangers and friends back to their homes after a very long day the jeepney and its counterpart the tricycle is the only reliable means of transport in almost all major thoroughfares in the metro jeepney drivers are your salvation when it's monsoon season when you need to get from one end of the street to the other for just 8 pesos when you experience the jeepney by virtue of your road encounter from your airconditioned car with cherry bubble gum freshener and bruno mars on spotify you will most likely hate jeepneys for everything that they are annoying frustrating disrupting but if you experience the jeepney as your everyday mode of transport the rest of the bourgeois world is just one huge shitpile of things and people that make your life more difficult than it already is revelation velunta's jeepney hermeneutics brings to the fore this contrast of locations it surfaces a reading that when done from inside a jeepney could breathe a whole new truth into the text any text but more profoundly the parables attributed to jesus of nazareth in the era of allegory and standard interpretations and proper driving conduct and road manners velunta's jeepney hermeneutics is a necessary disruption to the ways in which we as faithful bible readers and law abiding motorists capable of doing no wrong conduct and view ourselves reading the parables of jesus inside a jeepney is good news for everyone in the jeepney which is roughly 70 of the general population in the philippines it is bad news for those in the remaining 25 and an absolute horror story for those in the uppermost 5 and if truth is a matter of statistics the truth that is preached by velunta is indeed truest those who would feel insulted by these truths will realize by the end of this book that they are exactly that which is wrong in this world and they should quite honestly repent before a jeepney runs them over by pastor kakay pamaran

this edited volume presents an empirical account of how neoliberal ideas are adopted on the ground by different actors in different educational settings from bilingual education in the us to migrant work programmes in italy to minority language teaching in mexico it examines language and education as objects of neoliberalization and as powerful tools and sites through which ideological principles underpinning neoliberal societies and economies are re-produced and maintained and with that inequality and exclusion this book aims to produce a complex understanding of how neoliberal rationalities are articulated within locally anchored and historical regimes of knowledge on language education and society

the voluminous book provides a range of international theories and methodologies in analytical folklore investigations and a classification scheme based on genre is offered as the system of taxonomy for philippine traditional materials lopez counts on the regional folklorists to refine the classification according to the texts of their respective areas the different genres too are explained and examined in another part of lopez's study the reader will definitely find interesting and useful the illustrative examples for

each genre

this handbook provides a comprehensive overview of spatial configurations of language use and of language use in space it consists of four parts the first part covers the various practices of describing space through language including spatial references in spoken interaction or in written texts the description of motion events as well as the creation of imaginative spaces in storytelling the second part surveys aspects of the spatial organization of face to face communication including not only spatial arrangements of small groups in interaction but also the spatial dimension of sign language and gestures the third part is devoted to the communicative resources of constructed spaces and the ways in which these facilitate and shape communication part four finally is devoted to pragmatics across space and cultures i.e. the ways in which language use differs across language varieties languages and cultures
