this fourth edition has been revised to include general updating of information throughout along with increased attention to environmental issues and concerns within its geographic framework it fosters awareness of recent geographically relevant problems through actual examples and case studies uses geographic perspectives to examine current human issues as well as the urban phenomenon graphs maps and photographs support and enhance the material presented

authoritatively written by a geographer who has worked on every continent human geography is sensitive to people of other cultures and from all walks of life focuses on key geographic concepts and puts them in practical and current perspective key issues that readers often have strong opinions about are identified and placed in geographical perspective which may often change readers views and opinions on the issues and problems

a book that will delight students key texts in human geography is a primer of 26 interpretive essays designed to open up the

subject's landmark monographs of the past 50 years to critical interpretation the essays are uniformly excellent and the enthusiasm of the authors for the project shines through it will find itself at the top of a thousand module handouts the textbook guide will surely become a key text itself read any chapter and you will want to compare it with another before you realize an afternoon is gone and then you are tracking down the originals professor james sidaway university of plymouth an essential synopsis of essential readings that every human geographer must read it is highly recommended for those just embarking on their careers as well as those who need a reminder of how and why geography moved from the margins of social thought to its very core barney warf florida state university undergraduate geography students are often directed to key texts in the literature but find them difficult to read because of their language and argument as a result they fail to get to grips with the subject matter and gravitate towards course textbooks instead key texts in human geography serves as a primer and companion to the key texts in human geography published over the past 40 years it is not a reader but a volume of 26 interpretive essays highlighting the significance of the text how the book should be read reactions and controversies surrounding the book the book's long term legacy it is an essential reference guide for all students of human geography and provides an invaluable interpretive tool in answering questions about human geography and what constitutes geographical knowledge

filling an enormous gap in the geographic literature here is a terrific book that shows us how to think about and practice human geographic research professor jennifer wolch university of southern california practising human geography lucidly comprehensively and sometimes passionately shows why methodology matters and why it is often so hard to choose a method is to choose the kind of geographical values one wants to uphold you need to get it right these authors do trevor barnes university of british columbia practising human geography is a godsend for students written in an accessible and engaging style the book demystifies the study of geographical methodology offering a wealth of practical advice from the authors own research experience this is not a manual of approved geographical techniques it is a reflexive critical and highly personal account combining historical depth with up to the minute examples of research in practice practising human geography is a comprehensive and theoretically informed introduction to the practices of fieldwork data collection

interpretation and writing enabling students to make sense of their own data and to develop a critical perspective on the existing literature the book makes complicated ideas approachable through the effective use of case studies and a firm grasp of contemporary debates peter jackson professor of human geography university of sheffield practising human geography is a critical introduction to key issues in the practice of human geography informed by the question how do geographers do research in examining those methods and practices that are essential to doing geography the text presents a theoretically informed discussion of the construction and interpretation of geographical data including the use of core research methodologies using official and non official sources and the interpretative role of the researcher framed by an overview of how ideas of practising human geography have changed the twelve chapters offer a comprehensive and integrated overview of research methodologies the text is illustrated throughout with text boxes case studies and definitions of key terms practising human geography will introduce geographers from undergraduate to faculty to the core issues that inform research design and practice

the new fifth edition of harm de blij s human geography covers the major elements of the human half of geography the book addresses the two binding themes of geography the spatial perspective and the relationships between human societies and natural environments
