Hans Ørberg's *lingua latina per se illustrata* is the world's premiere series for learning Latin via the natural method. Students first learn grammar and vocabulary intuitively through extended contextual reading and an innovative system of marginal notes. It is the only textbook currently available that gives students the opportunity to learn Latin without resorting to translation but allows them to think in the language. It is also the most popular text for teachers at both the secondary and collegiate levels who wish to incorporate conversational skills into their classroom practice. The second of two volumes in the series, *lingua latina per se illustrata roma aeterna*, introduces the most celebrated authors of antiquity through the lens of Roman history. A vivid description of the city's monuments precedes a prose retelling of the first four books of Virgil's *Aeneid*. With many of the most famous passages in their original verse form, the selection from Virgil is followed by Book One of Livy's engaging mythical history of Rome's foundation. The prose selections are judiciously chosen and in the first few chapters gently adapted to provide students with attest that is authentically Latin and yet not difficult. The unadapted selections, which make up the majority of the text, are taken from Aulus Gellius, Ovid, Nepos, Sallust, and Horace. These annotated selections make *roma aeterna* useful both as the next step after *familia romana* and as a survey of Latin literature in its own right. *roma aeterna* incorporates the following features: Latin immersion with vowel lengths marked; approximately 3,000 new vocabulary words; short discussions of grammar and exercises for each chapter; selected readings cover the material in a Roman history course; index of Roman rulers and of historical events arranged chronologically; the volume indices contain chronological lists of Roman consuls and their triumphs (*fasti consulares* and *triumphales*); a name index (*index nominum*) with short explanations in Latin and an *index vocabulorum* covering all the words used in parts I and II.
