the military balance has been published annually since 1959 the 2023 edition provides an open source assessment of the armed forces and equipment inventories of 173 countries with accompanying defence economics data alongside detailed country data the military balance assesses important military issues region by region and includes graphics to illustrate these as well as noteworthy equipment developments maps this year include a focus on russia s full scale invasion of ukraine and select china russia military cooperation activities the book draws on the range of data carried in the military balance online database particularly the procurement features in each regional section the accompanying wallchart explores the military use of outer space an increasingly important element of defence capabilities focusing on china russia and the united states for those involved in defence and security policymaking analysis and research the military balance is an indispensable source

this book recounts the successes and failures of the us army s army transformation program in the larger context of the department of defense s overall military transformation effort spurred by the belief that rma represented the future the department of defense dod set out to transform the u s armed forces by adopting rma concepts led by president george w bush

and defense secretary donald rumsfeld the dod spent billions in an attempt to make the hypothetical capabilities real changing the entire structure of the armed forces as a result the services the media congress and the military industry each had its own agenda all of which continue to come into play in the development of rma strategies the interplay of politics technology and military reality offers a fascinating narrative sure to be found controversial by some compelling by all this is the only available book length examination of the way the u s army and department of defense have tried to create the capabilities promised by the high tech revolution in military affairs of more immediate concern it is also the only in depth account of the effect rma and transformation concepts had on the american operations in afghanistan and iraq many of the problems in both iraq and afghanistan author thomas k adams argues arose from the dod s implacable desire to implement rma driven transformation concepts whether they were appropriate or not what we need to do he maintains is to fight the war we have not the war we want

published each year since 1959 the military balance is an indispensable reference to the capabilities of armed forces across the globe it is used by academia the media armed forces the private sector and government it is an open source assessment of the military forces and equipment inventories of 171 countries with accompanying defence economics and procurement data alongside detailed country data the military balance assesses important defence issues by region as well as key global trends such as in defence technology and equipment modernisation this analysis is accompanied by full colour graphics including maps and illustrations with extensive explanatory notes and reference information the military balance is as straightforward to use as it is extensive the 2022 edition is accompanied by a fullcolour wall chart illustrating security dynamics in the arctic

this report describes the design organization and capabilities of a new u s army research institute for the behavioral and social sciences ari warfighting experimentation lab at fort benning georgia it was developed to provide the ari staff with a reach forward ability in training research as the dod training transformation t2 gets underway the army is now working on its transformation as an ongoing perpetual function because of the flux inherent in perpetual transformation many of its proposed future developments are and will continue to be abstract with varying kinds and amounts of related empirical data thus there was a need for the warfighting experimentation lab to provide a flexible simulation environment in which researchers can

examine proposed and evolving tactical technologies and innovations a major design consideration for the ari facility was to mirror the equipment in the infantry school s own simulation center using parallel surrogate equipment stinet

techniques for reducing casualties torture devices tools for conflict resolution or the technology of political control ostensibly the major impetus for the development of non lethal weapons has been to apply force without causing permanent injury or death thereby reducing the need for lethal force this book sheds light on a more complex story with varied drivers contradictory policy premeditated and unanticipated results and challenges to social ethical and legal norms with particular attention to the ongoing development of drugs lasers microwaves and acoustics as incapacitating weapons it provides an up to date analysis of the key technologies and weapons programmes and highlights the major policy issues and concerns there has been much conjecture about new and emerging non lethal weapons this book separates what is known from the speculation about developments at this intersection of technology and weapons development
