america s civil war provides a detailed overview of the cultural and ideological landscape of post colonial america that set the stage for war and vividly describes the course of the conflict that took more american lives than any war in history and altered the course of the nation emphasis is placed on the fierce cultural and economic rivalry between the industrial north and the agricultural south and the pivotal rift concerning slavery that led to this irrepressible and bloody fight the lives of common soldiers the weapons and methods of warfare the presidency of abraham lincoln and the role of other significant political and

military leaders are among the topics discussed as well as the abolitionist movement the underground railroad and dramatic figures such as harriet beecher stowe and john brown challenging review questions encourage meaningful reflection and historical analysis maps tests answer key and extensive bibliography are included

set of selected representative elements of hm reading curriculum materials for sixth grade teacher s edition is incomplete including teaching materials for theme 1 of the six themes comprising the complete curriculum

across the united states thousands of hazardous waste sites are contaminated with chemicals that prevent the underlying groundwater from meeting drinking water standards these include superfund sites and other facilities that handle and dispose of hazardous waste active and inactive dry cleaners and leaking underground storage tanks many are at federal facilities such as military installations while many sites have been closed over the past 30 years through cleanup programs run by the u s department of defense the u s epa and other state and federal agencies the remaining caseload is much more difficult to address because the nature of the contamination and subsurface conditions make it difficult to achieve drinking water standards in the affected groundwater alternatives for managing the nation s complex contaminated groundwater sites estimates that at least 126 000 sites across the u s still have contaminated groundwater and their closure is expected to cost at least 110 billion to 127 billion about 10 percent of these sites are considered complex meaning restoration is unlikely to be achieved in the next 50 to 100 years due to technological limitations at sites where contaminant concentrations have plateaued at levels above cleanup goals despite active efforts the report recommends evaluating whether the sites should transition to long term management where risks would be monitored and harmful exposures prevented but at reduced costs
