english abstract this lesson is mainly about the future tenses will future and going to future my intention is to teach the study group both the formation of the tenses as well as the usage when exactly to use which tense in order to express something in the future therefore i planned a double period where the first lesson is only about the formation of the future tenses and the aim of the second lesson is to make clear to the learners when to use the will future or the going to future i did not yet have the opportunity to give this lesson in reality so i assumed a class in which this lesson could work the way i planned it too personal 1 1 situation of the class i would provide this double period with its focus on the future tenses will future and going to future for a class in the late 6th or early 7th grade at secondary school while planning i assumed that the pupils already heard about the building of the tenses and do know that these tenses are used to talk about the future but that they have to practice how to build certain sentences like positive statements negotiations as well as questions what will be completely new to them is the question when exactly to use which tense in order to express something in the future that means concerning the formation of the tenses this lesson will be a repetition for them but concerning the usage this lesson presents an introduction it is important that the study group is motivated to work as there are many parts where they have to be proactive moreover it is a precondition that they learned to work with a partner as well as in a group of minimum three pupils otherwise this lesson could not be realized 1 1 objectives and aims the superordinated aim of this lesson is that the study group knows how to form and when to use the future tenses will future and goin
