After reading this concise volume, the student should be able to create a targeted study plan that will enable them to reach their potential on the challenging USMLE Step 1 exam.

Educational Principles and Practice in Veterinary Medicine is an in-depth, veterinary-centered reference to the discipline of education. *Educational Principles and Practice in Veterinary Medicine* provides a detailed, comprehensive reference to the discipline of education both broadly and as it relates to veterinary medicine. Written for veterinary faculty members, instructors, and educators in other health professions, the book offers an in-depth examination of knowledge and skills related to veterinary education. It discusses educational theory, how people learn, the structure and function of higher education, and educational technologies, among many other topics of importance. Sections cover educational leadership, professional development for faculty, research methods, and study design, administration, outcomes, and assessment, accreditation, and the roles of the professional program. *Instructor: Educational Principles and Practice in Veterinary Medicine* provides a detailed exposition to the discipline of education encompassing both theory and practice. It covers essential topics such as educational theory, the structure and function of higher education, and educational technologies, all tailored to veterinary education. It acts as a reference to education-related knowledge and skills with an emphasis on how these topics relate to veterinary medicine. It supports veterinary faculty and instructors interested in taking their knowledge and skills to the next level. *Educational Principles and Practice in Veterinary Medicine* offers veterinary faculty and instructors a complete resource for understanding the field of education and improving their skills and knowledge.

Vols 15-21, no. 4, 1966-Apr. 1972, include the doctor and the law, which retained separate volume numbering.

The volume includes papers presented at the International KEIS Conference on Human-Centred Intelligent Systems 2024, KEIS HCIS 2024, held in Madeira, Portugal, on June 19-21, 2024. This book highlights new trends and challenges in intelligent systems, which play an important part in the digital transformation of many areas of science and practice. It includes papers offering a deeper understanding of the human-centred perspective on artificial intelligence, of intelligent value co-creation, ethics, value-oriented digital models, transparency, and intelligent digital architectures and engineering to support digital services and intelligent systems, the transformation of structures in digital businesses, and intelligent systems based on human practices, as well as the study of interaction and the co-adaptation of humans and systems.
