if we could transport ourselves back to the first century ad would we know the year date day and hour of the crucifixion of jesus yes we would we may even have been an eyewitness but can we know these time markers today yes we can in the day jesus
died using biblical historical archaeological and literary information of that century readers will trace the time of jesus death to the very hour of the very day of the very year that the savior was crucified this is not some hocus pocus pseudo science this is
the real deal based on eyewitness historical and literary accounts and relying on the methods of telling time in the first century readers can pinpoint the hour jesus said it is finished it s almost like being there

the lines have been drawn on one side are young earth creationists who assert that god created the universe in six days and based on calculations derived from the bible that the earth is six thousand years old on the other side are secular scientists who
claim the universe has existed for over thirteen billion years the earth for 4 5 billion scientists claim that no miracles were necessary to form the universe and that everything is explained by natural causes however young earth creationists point to verses
at the beginning of the bible and the beginning of the book of john that clearly claim that god created the universe in the beginning god created the heavens and the earth the earth was formless and void and darkness was over the surface of the deep and
the spirit of god was moving over the surface of the waters genesis 1 1 2 in the beginning was the word and the word was with god and the word was god he was in the beginning with god all things were made by him and without him was not anything
made that was made john 1 1 3 but what if there is no contradiction between scientific data and the bible arnold guyot was a nineteenth century geologist and geographer at princeton university in addition to his numerous scientific accomplishments he
developed the day age interpretation of genesis 1 in which the days of creation represent geologic ages when we view the bible through this lens we find that modern science has not only failed to refute the miracles of genesis but has in fact provided
abundant evidence for their veracity genesis revealed a scientific examination of the creation story takes readers down the twin paths of science and theology to show that they lead us to the same destination citing a multitude of discoveries in astronomy
and geology dr peter waller makes a compelling case for guyot s interpretation and for the miracles described in genesis 1 1 25

the illustrations in this book are created by team educoback global project management tools and techniques explores the art of managing projects effectively tracing its roots from prehistoric hunting parties to monumental undertakings like the pyramids
