the rapid pace of technological change constantly gives rise to new ethical dilemmas and engineers must be as well versed in societal values and ethics as they are in the technical concepts of their disciplines ethics and professionalism in engineering provides a practical introduction for engineering students that emphasizes ethical decision making mccuen and gilroy situate engineering ethics in the wider context of business and environmental ethics and guide students through case studies emphasizing value conflicts often encountered in engineering

written in simple and straightforward language environmental problems in the bakossi landscape is a practical handbook of knowledge and skills needed to be more efficient in sensitising and taking practical steps to address environmental problems although the handbook focuses on the seven environmental problems of the bakossi landscape its depth and breadth of analysis and the deliberate attempt at not making it too site specific in the discussion of the problems makes it equally useful for environmental clubs of schools in other areas as well as other community educators interested in environmental issues or environmental education the ultimate aim of the book is in assisting all and sundry make the world a better place by being more sensitive to the needs sensibilities and sensitivities of the environment

biodiversity is the foundation and mainstay of agriculture forests and fisheries

deforestation free production will be a requirement of the global market from now through 2030 more than 1 000 financial institutions e g banks trusts donors and 600 multinational companies have pledged to produce and supply zero deforestation agricultural products and these establishments financial institutions and multinational companies are developing a process of testing screening and certification for service providers and countries that produce or export agroforestry products the governments of european countries the americas and australia are also aggressively building a legal framework to monitor and verify that imported goods have not resulted in deforestation or forest degradation in vietnam 92 domestic and foreign companies from 21 fields and industries have signed commitments to achieve zero deforestation by 2020 these industries include fashion apparel and footwear agriculture cosmetics and personal care food and agriculture retail chains home construction furniture and flooring and renovation supplies consumer goods paper and packaging printing and publishing and automotive industry rubber automobile manufacturing these companies contribute greatly to the national gdp and

local economic development and are major buyers of agricultural products including coffee wood soybeans and poultry however businesses in vietnam are not prepared to adapt the supply chain of agroforestry products to this trend they require knowledge and skills to face the new market requirements without further research and long term planning vietnam s agroforestry products industry is at risk of losing market share to fierce international competition leading to enormous economic losses for the country the government needs to develop a legal framework to support and monitor companies that meet deforestation free commitments while building the capacity of stakeholders to respond to the requirements of new markets in order to ensure a solid position for agroforestry products and their sustainable contribution to the national economy over the next 30 years
