a new edition of this very well respected introduction to historical linguistics

historical linguistic theory and practice contains a great number of different layers which have been accepted in the course of time and have acquired a permanency of their own these range from neogrammarian conceptualizations of sound change and analogy to present day ideas on rule change and language mixture to get a full grasp of the principles of historical linguistics it is therefore necessary to understand the nature and justifications or shortcomings of each of these layers not just to look for a single overarching theory the major purpose of the book is to provide in up to date form such an understanding of the principles of historical linguistics and the related fields of comparative linguistics and linguistic reconstruction in addition the book provides a very broad exemplification of the principles of historical linguistics

the new edition of a comprehensive accessible and hands on text in historical linguistics revised and expanded with new material and a new layout this accessible hands on textbook not only introduces students to the important topics in historical linguistics but also shows them how to apply the methods described and how to think about the issues abundant examples from a broad range of languages and exercises allow students to focus on how to do historical linguistics the book is distinctive for its integration of the standard topics with others now considered important to the field including syntactic change grammaticalization sociolinguistic contributions to linguistic

change distant genetic relationships areal linguistics and linguistic prehistory

the handbook of historical linguistics provides a detailed account of the numerous issues methods and results that characterize current work in historical linguistics the area of linguistics most directly concerned with language change as well as past language states contains an extensive introduction that places the study of historical linguistics in its proper context within linguistics and the historical sciences in general covers the methodology of historical linguistics and presents sophisticated overviews of the principles governing phonological morphological syntactic and semantic change includes contributions from the leading specialists in the field

roger lass offers a critical survey of the foundations of the art of historical linguistics

originally published by houghton mifflin in 1972 this introductory text deals with human language and its relationship to other areas of human culture and behavior discussions include such diverse topics as the classification of languages sound and grammar changes reconstruction and social and psychological factors involved in the history and development of language

the aim of historical linguistics is the description and explanation of language change in this book the author gives a brief and clear introduction to the field and outlines the way in which historical linguists attempt to explain why and how languages change

this volume presents seven extensive essays by specialists in their respective fields of historical linguistics the first essay after the introduction states the principles presented in directions for historical linguistics 1968 and assesses the progress made since then towards constructing a general theory of language change like the following essays on phonology and morphology it poses new questions that have arisen in the increasingly ambitious research historical attention to discourse the topic of the next essay is virtually new though it too finds predecessors among philologists who devoted themselves to texts finally two essays treat etymology one concentrating on the rigorously investigated romance field the other on indo european especially on new insights prompted by attention to hittite
