the success of an offering is defined by the company's ability to design, communicate and deliver market value; the particular way in which an offering creates value is determined by the company's business model and its two building blocks: strategy and tactics. The key aspects of developing an offering's strategy, designing its tactics and crafting a market value map are the focus of this note. The discussion of marketing strategy and tactics is complemented by an in-depth overview of two additional topics: the 3 C 4 P and 5 Forces frameworks and the key aspects of analyzing the market context. This note is an excerpt from chapter 2 of *Strategic Marketing Management: Theory and Practice* by Alexander Chernev, Cerebellum Press, 2019.
