two books bound together by one of the greatest pianists of all time and his famed teacher the shortest way to pianistic perfection and rhythmic dynamics pedal and other problems of piano playing

the craft of piano playing presents a new comprehensive and highly original approach to piano technique with a fascinating series of exercises designed to help the reader put this approach into practice alan fraser has combined his extensive concert and pedagogical experience his long standing collaboration with the virtuoso kemal gekich and his professional training in feldenkrais method to create this innovative technique using numerous musical examples and sketches he shows how many common movement habits at the keyboard can be counterproductive and provides a new way of manipulating the skeletal frame of the hand to produce astonishing sonic results from the instrument this book suggests that in the light of new insights into the physics of human movement a further development of piano technique is now possible and that improved physical ability can free musical individuality to express itself more fully the series of movement exercises presented activates the physical functions necessary to the pianist helping both students who need remedial work in basic strength at the keyboard and those who seek a new dimension of musical understanding and a new path for the development of pianist skills thus synthesizing musical and physical issues this approach can also serve as an effective antidote to debilitating performance anxiety increasing one s emotional security by improving the physical and musical basis for it by filling in a missing link between intention and physical execution this book truly aims to advance the craft of piano playing visit alan fraser s web site at alanfraserfaithweb.com

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

so many of the great pianists and teachers have come out of poland and russia rubinstein anton as well as arthur leschetizky paderewski the lhevannes gilels richter and others yet we know little about their methods of learning and teaching george kochevitsky in the art of piano playing supplies some important sources of information previously unavailable in the united states from these sources tempered by this own thinking kochevitsky formulated a scientific approach that can solve most problems of piano playing and teaching george kochevitsky graduated in 1930 from leningrad conservatory and did post graduate work at moscow conservatory after coming to the u s he taught privately in new york city gave a number of lectures and wrote for various music periodicals
