the argument from design is still the most popular reason given for belief in god the material presented here remains central to early 21st century discussions of the relations between science and religion

according to british scholar conor cunningham the debate today between religion and evolution has been hijacked by extremists on one side stand fundamentalist believers who reject evolution outright on the opposing side are fundamentalist atheists who claim that darwin s theory rules out the possibility of god both sides are dead wrong argues cunningham who is at once a christian and a firm believer in the theory of evolution in darwin s pious idea cunningham puts forth a trenchant compelling case for both creation and evolution drawing skillfully on an array of philosophical theological historical and scientific sources to buttress his arguments
