students learning modern foreign languages often comment that it is just too hard to learn and remember all of vocabulary presented to them yes there is a lot of content that needs to be covered and a lot of vocabulary that needs to be learned but there is a way of making this process engaging and motivating language lessons needn't be full of grammar worksheets endless drilling and rote learning lists of vocabulary learning languages isn't

It's always fun and games but these aren't games they are fun learning activities and they can help revolutionise language teaching enabling teachers to authoritatively impart knowledge while fostering a thirst for knowledge and love of learning in their students. First, the vocabulary fun learning activities allow students to learn the vocabulary in ways which will improve recognition and recall. Then, the fun learning activities use this vocabulary knowledge to build sentences and paragraphs, explore and use this language while keeping the whole class engaged and actively learning. The activities are designed to encourage all students to participate and learn more through enjoyment. Based on the author's extensive classroom experience and underpinned by research into how students learn best, each activity comes complete with a detailed explanation and plenty of ideas for variations, differentiations and extensions. The activities come with example vocabulary lists in French, German and Spanish as a starting point which are all available for download via a link provided in the book. However, the activities will work effectively in any language and with any vocabulary list of the teacher's choosing and can be adapted to suit every topic, learning objective and age range. Discover ready to use activities which will make for outstanding lessons in every class and ensure engagement, motivation, rapport, progress and attainment over time.

With so much emphasis these days on making students globally competitive and prepared to beat students of other nations on international assessments and with so much talk about academic rigor and emphasis on rigid accountability measures, we are in danger of losing sight of the most fundamental element of successful teaching and learning: love. Teaching kids to love learning, not just endure it, makes the case that if we really want no child left behind, we must return to the solid foundation on which successful teaching and learning has always rested: the love of teacher for her students and they for her, and the passion of the teacher for her discipline and her desire to share that passion with her students.

The concise version of this best-selling text accommodates shorter courses while still offering the key elements of the complete text by combining topics and streamlining articles and activities. Explanation and terms in the Learning Style Inventory have been simplified for clarity and ease of use. A Resources chapter focuses on financial strategies, community resources and computer resources. In addition, a new article, "Don't Let Debt Bring You Down," offers suggestions on preventing credit card debt and paying student loans. A significantly shorter format, 10 chapters, makes the concise suitable for 0, 1 and 2 credit courses.

How to Meet Standards: Motivate Students and Still Enjoy Teaching is a truly outstanding practical resource that should be in every educator's professional library. It succeeds beautifully with the complex challenge of defining a classroom in which standards come alive for teachers and students in a doable manner. From the foreword by Spence Rogers, founder and director, Peak Learning Systems, most states in the USA have adopted

some form of standards and accountability into their systems but few teachers understand how to model their classrooms to prepare their students to thrive in this new educational environment in this book the author offers teachers the tools they need to build the standards based classroom rather than throwing away all their valuable techniques and experience teachers learn to synthesize the best of what they already know and do with current and emerging research on learning and learners the four components of the standards based classroom will help teachers plan lessons assess student work and create a community of learning that meets the standards that have been set for their students
