this manual first published in 1918 was prepared for the guidance and instruction of apprentices on the training ships it covers any aspect of traditional seamanship

it is a pleasure to introduce to the reader this new marine painting manual the previous edition entitled ship painting manual was published in 1975 since then a number of new technological developments have taken place also standards with regard to safety health and the environment have become more severe these changes called for a thoroughly revised and updated marine painting manual i believe that the editor should be congratulated on having completed this task in such a commendable way i hope that this new volume will find as enthusiastic a

response among those concerned with maritime affairs as its predecessor did some fifteen years ago dr jan raat director netherlands foundation for the co ordination of maritime research introduction the marine painting manual sets out to provide clear guidelines for the effective protection of marine structures ocean going vessels and offshore platforms painting is a high cost procedure and is a crucial factor in determining the life and subsequent maintenance of steel structures in the marine environment the book is a follow up to the ship painting manual published in 1975 it has been completely revised partly rewritten and an additional chapter on offshore structures included the present volume contains detailed and up to date information on all aspects of the preparation and painting for the protection of marine structures the following chapters are included 1 the protection of different parts of ships under construction 2 the protection of different parts of offshore structures under construction 3 surface preparation

unlike some other reproductions of classic texts 1 we have not used ocr optical character recognition as this leads to bad quality books with introduced typos 2 in books where there are images such as portraits maps sketches etc we have endeavoured to keep the quality of these images so they represent accurately the original artefact although occasionally there may be certain imperfections with these old texts we feel they deserve to be made available for future generations to enjoy

excerpt from the merchant marine manual our government calls the youth of the land to serve in a romantic occupation that abounds in glorious traditions of valiant deeds and useful service about the publisher forgotten books publishes hundreds of thousands of rare and classic books find more at forgottenbooks com this book is a reproduction of an important historical work forgotten books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy in rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition we do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

this is a reproduction of a book published before 1923 this book may have occasional imperfections such as missing or blurred pages poor pictures errant marks etc that were either part of the original artifact or were introduced by the scanning process we believe this work is culturally important and despite the imperfections have elected to bring it back into print as part of our continuing commitment to the preservation of printed works worldwide we appreciate your understanding of the imperfections in the preservation process and hope you enjoy this valuable book

this fully revised new edition covers the complete radar arpa installation and serves as the most comprehensive and up to date reference on equipment and techniques for radar observers using older and newer systems alike suitable for use as a professional

reference or as a training text the book covers all aspects of radar arpa and integrated bridge systems technology including ais ecdis and gnss and their role in shipboard operations it is a valuable resource for larger vessels and also covers the needs of leisure and amateur sailors for whom this technology is now accessible radar and arpa manual provides essential information for professional mariners including those on training courses for electronic navigation systems and professional certificates internationally reference is made throughout to imo international maritime organization performance standards the role of radar in navigation and in collision avoidance and to international professional and amateur marine operations qualifications the most up to date book available with comprehensive treatment of modern radar and arpa systems and ecdis electronic chart display information systems full coverage of imo performance standards relating to radar and navigational technology on new and established vessels covers best practice use of equipment as well as underlying principles with essential mathematics and complicated concepts illustrated through the use of clear illustrations
