what did the ancient Egyptians know about future life about the immortality of the soul why only everything that the Freemasons have passed on to we modern types through the traditions of christianity judaism and islam a bizarre but fascinating example of early 20th century esoteric this work will bemuse and beguile anyone interested in secret societies grand conspiracy theories and the trivia of world history with its rambling interconnections between the symbols of humanity's cultures and beliefs from crosses and swastikas to circles and stars to eyes of horus and crowns as a demonstration of the supposed universality of freemasonry

hajime nakamura argues with remarkable erudition that particular intellectual and social developments can be traced in all great cultures that each culture deals with its problems in about the same order discussing in their similarities and in their subtle differences ideas from india china japan and europe the author considers such inclusive notions as the concept of god the controversy over universals and the nature of orthodoxy and heterodoxy this is a lucid and rewarding book which sets a new standard for dealing with a history of thought across many cultures
