in this exploration of colombian drug lord pablo escobar s impact on popular culture  
aldona bialowas pobutsky shows how escobar s legacy inspired the development of  
narcocultura television music literature and fashion representing the drug trafficking  
lifestyle in colombia and around the world

this book draws on a multi method study of film and television narratives of global

criminal networks to explore the links between audiovisual media criminal networks and global audiences in the age of digital content distribution mapping out media representations of the ongoing war on drugs in Mexico and the United States the author delves into the social cultural and geopolitical impacts of distribution and consumption of these media with a particular emphasis on the globalized Mexican cartels this book investigates three areas gender and racial representation in film and television the digital distribution of content through the internet and streaming services such as Hulu and Netflix and depictions of extreme violence in film television and online spaces to identify whether there are fundamental similarities and differences in how Hollywood productions reproduce stereotypes about race gender and extreme violence some of the movies and television series analysed are *Breaking Bad* *Ozark* *Weeds* *Rambo* *Last Blood* *No Country for Old Men* *Sicario* and the Netflix series *Narcos* *Narcos Mexico* and *El Chapo* taking a unique interdisciplinary approach to the study of cartels in the media this book will be of interest to students and scholars of media studies film television security studies Latin American and cultural studies

electrospun and nanofibrous membranes principles and applications covers the fundamental basic science and many engineering aspects of electrospun membrane technology and nanofibers membrane design and membrane processes the book comprehensively reviews a wide range of applications including pressure driven processes MD process batteries oil water separation air filtration drug delivery fuel cells and ion exchange membranes as well as antimicrobial membranes electrospun and nanofibrous membranes will be useful for a range of audiences chemical polymer and materials engineers professors and graduate students working on membrane based separation technology and electrospun nanofibers as well as R&D engineers in industry working with applications including water and wastewater treatment desalination drug delivery and tissue engineering new generation of batteries fuel cells and air filtration introduces the principles of electrospinning and electrospun membranes reviews and evaluates the different configurations of electrospinning discusses scale up strategies for nanofiber production

inhabitants of Medellín Colombia suffered from the war like violence perpetrated by drug cartels and other actors in the 1980s and 1990s thousands died including innocent civilians judges and journalists many more were injured and suffered psychological trauma three decades later however transnational media companies such as Netflix have transformed the traumatic memories into entertainment while the main perpetrator Pablo Escobar became a recognizable brand name even as global audiences are captivated by Escobar's life and myth his victims' stories fade into oblivion victimhood memory and consumerism profiting from Pablo documents the story of violence inflicted on Medellín and critically examines the status of its victims drawing on unique empirical material the book addresses the impact of commercial exploitation of the city's violent past on the victims of mass drug violence and on the present nature of the city to demonstrate the magnitude of the profits made from the legacy of Pablo Escobar the authors cover a range of topics first they discuss the appropriation by commercial forces of the city's traumatic past for the

purposes of entertainment second they describe escobar tours souvenirs and other collectibles offered by medellín s tourism industry and lastly they expose the less visible gains reaped by political and social actors who participate in the global mythmaking surrounding escobar through interviews with those directly affected by drug violence the authors show that these cultural forces have immediate symbolic and material consequences victimhood memory and consumerism offers a poignant critique of the role of the global market economy in the unequal distribution of narrative power among those engaged in processes of collective memory construction the book aims more broadly at addressing an issue that has so far been neglected in the disciplines of criminology international criminal justice and victimology namely the status of victims of large scale drug violence a thoroughly compelling read this volume will appeal internationally to academics in criminology and victimology as well as those interested in critical perspectives on netflix commercialism and colombian history

nutrients play a significant role in brain development throughout fetal and postnatal life this book reviews the evidence from animal and human research highlighting the influence of specific nutrients on brain function and cognitive development with a unique integrative approach to the nutritional environmental and genetic influences on brain development the book examines issues such as single versus multiple limiting nutrients critical periods of deficiency and the impact of the child parent relationship on the architecture of the developing brain the effect of undernutrition on the developing brain of infants and young children can be devastating and enduring it can impede behavioural and cognitive development and educability thereby undermining future work productivity chapter authors are experts in this field of research and provide an up to date insight into the role of the individual nutrients in brain development and function

this book highlights the utilization of biomaterials as emerging suitable and effective flame retardants frs to replace most of the conventional frs e g halogenated frs biomaterials are considered to be sustainable biodegradable and renewable resources they are abundantly available which makes them affordable information and findings on the characteristics of biomaterials and their use as frs have been explored herein the tremendous scientific progress made in using biomaterials as flame retardants for a wide range of products is elucidated the major goal is to draw attention to the opportunities and challenges of switching to biomaterial based frs in place of conventional frs in order to create a sustainable society
