for students and practitioners of gerontology this indispensable text examines all aspects of administering services to older adults jeffrey a giordano and thomas a rich both professors of gerontology with extensive experience in administration surveyed practicing administrators over a two year period the resulting integration of administrative theory and practice is evident throughout this book s 13 chapters which address everything from leadership styles and management techniques to ethical issues and community relations in addition the authors thoroughly examine the most widely encountered facets of the typical gerontologist administrator s career including communication organizational structure the role and function of human resources administration motivation and productivity supervisory responsibilities staff development financial management strategic planning program evaluation and organizational

change both undergraduate and graduate students of gerontology will benefit from using Giordano and Rich's book as a core text for administration courses. Professors of gerontology administration will be relieved at last to have found a work that emphasizes the unique requirements of administering older adult programs. The authors consider all three service sectors: private, public, and not-for-profit. In addressing those who are now in administration, those who aspire to be administrators, and those who will be surprised someday to be offered administrative responsibilities, assuming a basic knowledge of gerontology, the text includes a learning experience following each chapter that allows readers to apply their knowledge of the field in a practical manner. Other special features include information on such contemporary challenges as how to use volunteers effectively, how to integrate ethics into programs for older adults, how to involve staff in administrative activities, how to make the most of public relations and fund-raising opportunities, and how to develop special projects.

This textbook provides a survey of the field of social gerontology, taking a multidisciplinary approach to the social aspects of aging and/or working with older adults. The authors demonstrate how age-related changes in the biological, functional, and psychological domains can influence the older person's interactions with his/her social and physical environment. They offer a view that presents aging positively, portraying concepts of active aging and resiliency and defining productive aging by elaborating on the numerous ways elders contribute to society and their families. Based on the latest research findings, it offers understanding to critical issues of aging, attending to differences by age and cohort, gender, ethnic minority status, sexual orientation, and socioeconomic status.

Vols 1-4 include material to June 1, 1929.

Covers diseases, disorders, treatments, procedures, specialties, anatomy, biology, and issues in an A-Z format with sidebars addressing recent developments in medicine and concise information boxes for all diseases and disorders.
