this classic volume by a well known linguist constitutes a systematic introduction to sociolinguistics unmatched in the clarity and forcefulness of its approach and to the study of language in its social setting

what is the nature of human language how did it originate how are different languages connected exploring over two thousand years of human enquiry the stories of linguistics is an accessible introduction to the individuals ideas and events that have shaped the field of linguistics from herodotus to chomsky and from philosophy to neuroscience kim ballard presents a fascinating narrative that brings to life a dynamic subject with a rich history the stories of linguistics uses a thematic rather than a traditional chronological approach to explore the complex development of western linguistics offers an accessible introduction to a field of linguistics which is attracting more and more interest guides readers seamlessly through linguistic history supported by timelines and suggestions for further reading and research with its broad scope and conversational style the stories of linguistics is an ideal introductory text for students at every level as well as anyone else with an interest in the history and development of language

this collection engages with key questions in panel study research by exploring more deeply the interrelationship between the individual and the community and the impact on language change across the lifespan the book is organized around four broad themes

each followed by a forward looking commentary that ties together the key findings from the individual chapters the first section examines style and socio indexicality with the goal of disentangling short term style shifting from long term language change the second section continues with a focus on style examining audience design and socially meaningful variation in professional settings as an integral component of age and role appropriate behavior the third section considers different language dialect contact scenarios and the impact on changing social identities and behavioural norms which can fluctuate across the lifespan for different settings and life stages and for different types of variables the final section explores a computational agent based model of lifespan and community change targeting the practical challenges often encountered in panel research such as data sparsity and the short duration of the human lifespan a postscript underscores the importance of considering style and setting as integral aspects of panel research rather than as afterthoughts and of leveraging computational modeling to expand our understanding of the interdependencies between lifespan and community change this book will appeal to scholars interested in language variation and change sociolinguistics historical linguistics and computational linguistics

this book presents a range of methodological approaches and case studies that illustrate the interconnection of language culture and social practice it is useful for anyone exploring the relation of language to psychology political theory feminist studies and literature and folklore

today s interest in social history and private life is often seen as a twentieth century innovation most often lucien febvre and the annales school in france are credited with making social history a widely accepted way for historians to approach the past in lost

worlds historian jonathan dewald shows that we need to look back further in time into the nineteenth century when numerous french intellectuals developed many of the key concepts that historians employ today according to dewald we need to view febvre and other annales historians as participants in an ongoing cultural debate over the shape and meanings of french history rather than as inventors of new topics of study he closely examines the work of charles augustin sainte beuve hippolyte taine the antiquarian alfred franklin febvre himself the twentieth century historian philippe ariès and several others a final chapter compares specifically french approaches to social history with those of german historians between 1930 and 1970 through such close readings dewald looks beyond programmatic statements of historians intentions to reveal how history was actually practiced during these years a bold work of intellectual history lost worlds sheds much needed light on how contemporary ideas about the historian s task came into being understanding this larger context enables us to appreciate the ideological functions performed by historical writing through the twentieth century

what is sociolinguistics is a tour through the major issues that define the field such as region status gender time language attitudes interaction and style while also exploring the sociolinguistics of multilingualism culture and ethnicity language contact and education all introduced with excitement humor and deep knowledge explores the sociolinguistics of multilingualism culture and ethnicity language contact and education provides useful and clear learning features including numerous innovative exercises and project ideas spotlighted research readings glossary terms chapter summaries and text boxes the companion website for instructors wiley com go vanherkprofs has powerpoint slides for each chapter with suggestions for framing class discussions and exercises further examples on concepts discussed in the book tips on additional readings to bring in and
