the concept of periodization is not new with the precursors of periodized training dating back more than 2 000 years ago but it is now obvious that the holistic development of an athlete encompasses more than their physical and tactical training scientific foundations and practical applications of periodization is the first book of its kind designed to optimize sport performance by integrating both classic and modern periodization theories with recovery methodologies nutritional interventions and athlete monitoring guidelines written by g gregory haff a world leading expert on periodization scientific foundations and practical applications of periodization incorporates the latest scientific evidence to provide a comprehensive understanding of how to implement planning and programming strategies to enhance physiological adaptations while other periodization books may discuss training theory few provide information on how to integrate various training models into the periodization process here are just some of the approaches incorporated into scientific

foundations and practical applications of periodization employing and blending parallel sequential and emphasis periodization models to develop athletes syncing recovery strategies with various phases and periods of training to enhance the adaptational process manipulating nutritional strategies to magnify performance using and interpreting monitoring data to adjust an athlete's program in accordance with the periodized plan applicable for athletes at all levels and in any sport scientific foundations and practical applications of periodization translates the latest research into usable information that directly enhances programming you will have access to real world practical examples and discussions of how to make scientifically sound programming decisions a glossary of over 400 terms will help you digest the content plus you will find periodization templates and directions on how to use them to create annual training mesocycle and microcycle plans templates are provided online via hkpropel to help you easily design periodized programs get the most comprehensive resource about periodization ever written and use scientific evidence to take your periodization programming to the next level with scientific foundations and practical applications of periodization earn continuing education credits units a continuing education exam that uses this book is also available it may be purchased separately or as part of a package that includes both the book and exam note a code for accessing hkpropel is not included with this ebook but may be purchased separately

this brochure is intended for all audiences concerned with decision and policy making in regard to the environment and sustainable development there are many different types of environmental assessment methods available to support decision making at global regional national and local levels and this guide aims serve as a useful quick reference source of information

the science of the virus and its effects and the clinical approaches to its treatment and transmission prevention are placed in the context of the history and epidemiology of the hiv aids pandemic each organ system of the body is explored as to manifestations of the disease treatment now and in the future as well as what the disease has taught us about the immune response the science of epidemiology which is so important in allowing for tracking of the disease and potential limitation of transmission is another aspect of aids explored in detail the pandemic manifests differently in different parts of the world and the relevance of the volume is enhanced by its international group of contributors no other text provides the historical and epidemiological context of this disease along with an update of diagnosis and treatment the underlying science and epidemiology of aids are not neglected so the student or clinician who is treating patients with aids can gain a full understanding of hiv aids in individual patients and in their communities

labour research international journal

millions of children are on the move both within and between countries with or without their

parents the conditions under which movement takes place are often treacherous putting migrant children especially unaccompanied and separated children at an increased risk of economic or sexual exploitation abuse neglect and violence policy responses to protect and support these migrant children are often fragmented and inconsistent and while children on the move have become a recognised part of today s global and mixed migration flows they are still largely invisible in debates on both child protection and migration

this report presents the initial action undertaken by the united nations environment program unep immediately following the cessation of hostilities in the gaza strip in january 2009 and summarizes the scientific findings of the complex assessment process carried out by unep at the request of its governing council during the spring and early summer of 2009 concrete recommendations are provided for the remediation of environmental damage caused by the recent escalation of hostilities as well as for longer term improvement of the environmental situation in the gaza strip
