sport pedagogy offers an essential starting point for anyone who cares about sport education and young people it offers invaluable theoretical and practical guidance for studying to become an effective teacher or coach and for anyone who wants to inspire children and young people to engage in and enjoy sport for life the book also focuses on you as a learner in sport prompting you to reflect critically on the ways in which your early learning experiences might affect your ability to diagnose the learning needs of young people with very different needs sport pedagogy is about learning in practice it refers both the ways in which children and young people learn and the pedagogical knowledge and skills that teachers and coaches need to support them to learn effectively sport pedagogy is the study of the place where sport and education come together the study of sport pedagogy has three complex dimensions that interact to form each pedagogical encounter knowledge in context what is regarded as essential or valuable knowledge to be taught coached or learnt is contingent upon historical social and political contextual factors that define practice learners and learning at the core of sport pedagogy is expertise in complex learning theories and a deep understanding of diversity and its many impacts on the ways in which young learners can learn teachers teaching and coaches coaching effective teachers and coaches are lifelong learners who can harness the power of sport for diverse children and young people gaining

knowledge and understanding of the three dimensional concept of sport pedagogy is the first step towards ensuring that the rights of large numbers of children and young people to effective learning experiences in and through sport are not denied the book is organised into three sections background and context young people as diverse learners the professional responsibility of teachers and coaches features of each chapter include research extracts comments to summarise key points individual and group learning tasks suggested resources for further reading and reference lists to enable you to follow up points of interest this book provides you with some of the prior knowledge you need to make best use of teaching materials coaching manuals and other resources in so doing you as a teacher or coach will be well placed to offer an effective and professional learning service to children and young people in sport

the mark of a great coach is a constant desire to learn and grow a hunger to use whatever can make them better the best selling author of teach like a champion and reading reconsidered brings his considerable knowledge about the science of classroom teaching to the sports coaching world to create championship caliber coaches on the court and field what great classroom teachers do is relevant to coaches in profound ways after all coaches are at their core teachers lemov knows that coaches face many of the same challenges found in the classroom so the science of learning applies equally to them unfortunately coaches and organizations have a mixed level of understanding of the research and study of the science of learning sometimes coaches and organizations build their teaching on myths and platitudes more than science sometimes there isn't any science applied at all while there are thousands of books and websites a coach can consult to better understand technical and tactical aspects of the game there is nothing for a coach to consult that explicitly examines the teaching problems on the field the court the rink and the diamond until now intended to offer lessons and guidance that are applicable to coaches of any sporting endeavor including everyone from

parent volunteers to professional coaches and private trainers lemov brings the powerful science of learning to the arena of sports coaching to create the next generation of championship caliber coaches

the challenge for those coaching mentoring supervising or teaching adults is to design and deliver high quality programmes that encompass a blend of teaching and learning approaches and strategies that are constructed for adult learners in multiple educational environments and that cater for the diversity of adult learners needs adult learners are complex individuals who come to the learning process with a multitude of different experiences teaching coaching and mentoring adult learners helps practitioners step up to this challenge by developing the skills needed to share their expertise with adult learners and engage them in new transformative practices this book also forms a timely contribution to the current period of evolution in adult education where extreme changes in the nature and scope of work and the globalisation of work and life are influencing learning the shift in adult education addressed in this book includes the globalisation of the workforce and the cultural impact on adult tertiary and further education the relationship established between adult educators and adult learners provision of adult education and professional development by private and major multimedia and corporate interests occupations boundaries between professions and between skilled and unskilled work assessing adult learners needs and adapting strategies to meet the perceived needs of adult learners in medicine education psychology and industry designing learning experiences to maximise the processing of complex conceptual knowledge and then transforming the knowledge to fit new learning environments the role of new technologies of learning in adult and vocational learning this book provides research based insight into the expectations and the value of the coach mentor tutor and supervisor roles and combines research with strategic guidance to support the implementation of innovative techniques through case studies strategies and methodologies in teaching

and learning in higher education and professional learning bringing together insights from an expert range of international contributors this text will be invaluable to higher education professionals and those involved in supervising coaching and mentoring in the workforce

supporting and challenging cooperating teachers to grow in their mentoring and coaching practices with preservice teachers and also in their own work as classroom teachers this practical guide presents and illustrates the coaching with care model a framework for reflection and action that helps cultivate a perspective on teaching that puts students at the center of teacher preparation and places value on apprenticeship and participation in learning the care model takes a turn away from traditional evaluation based training approaches offering a way for cooperating teachers and facilitators and university teacher educators who work with them to come together to shape innovative coaching and mentoring experiences for preservice teachers mentoring preservice teachers through practice building on the authors own work with cooperating teachers is based on the most recent research on learning to teach and supporting preservice teachers and grounded in the realities of teacher education today each chapter includes questions for discussion and suggested readings that can be used to explore the focus of the chapter more deeply as well as relevant research reports published by the authors

sport coaching has grown significantly as an area of research interest with an expanding number of sport coaching programs offered the past decade or so has also seen significant interest in games based approaches to coaching and teaching games on a global level game sense is one of the most recognized athlete centred approaches for team sports probably close behind teaching games for understanding game sense for coaching and teaching provides an understanding of how an Australian approach to coaching has grown and developed as it has been taken up

across the globe while the focus is on game sense the book also offers insights into how any coaching or physical education pe teaching approach changes as it is adapted to different contexts across the world examining the theoretical historical and philosophical foundations of sport coaching and teaching in schools this book is particularly useful for undergraduate and post graduate sport coaching and pe courses but is also likely to be of interest for all practicing sports coaches or physical education teachers and lecturers

quality teaching in a culture of coaching identifies and describes the role of coach in education it outlines a coaching process and reveals specific skills needed to develop an effective coaching program whether in a classroom school district or other teaching environments backed by cited research it also includes useful models real life anecdotes and examples practical applications of coaching to various circumstances as well as real life examples of schools and districts with various types of coaching programs

global interest in quality sport coaching is at an all time high but until now there hasn t been a go to resource to help national governing bodies sport organizations or coach educators within universities to structure coach education learning and development coach education and development in sport fills that gap offering a comprehensive guide of instructional strategies used by world leaders in coach education each chapter is written by experienced scholar practitioners seamlessly integrating personal experience and insight with current research to show how and why to use an instructional strategy in a specific context that can be adopted or adapted to fit many sport contexts covering essential topics such as reflective practice social learning online technology diverse populations and more the book provides the fundamentals of tried and trusted instructional strategies to develop coaches from youth club and collegiate sport to elite professional and olympic levels it is a

complete resource for fostering coaching excellence in small and large scale programming and from volunteer to part time or full time coaches designed to stimulate ideas and provide flexible practical tools this book is an essential read for anybody working in sport including coach developers sport managers coaches mentors athletic directors sport psychology consultants and teachers or professors

finally a book that i can use a hands on foot to the pedal kind of reading experience of all the books on educational coaching available this one answers my actual day to day questions you can tell bonnie davis has been there an invaluable resource mary kim schreck author the red desk concrete guidelines for novice and experienced coaches this comprehensive guide encompasses a multilayered model that provides a rich experience for both coach and trainee how to coach teachers who don t think like you covers the process and content of coaching and describes a unique approach that encourages teachers to write and reflect upon their practices coaches can use literacy strategies to train across content areas and learn how to individualize their approach to honor teachers distinctive learning styles the author presents samples of teacher writing and student work generated from coaching and offers narratives from practicing coaches across the country in school based district and independent settings to illustrate the real world of coaching with a format that gives readers the flexibility to choose sections best suited to particular coaching situations the book includes specific field tested practices to support personal learning differences strategies for modifying classroom practice and improving student achievement coaching models for individual teachers and teams of teachers options for coordinating coaching activities with teachers schedules whether you are just beginning a coaching career or have several years of experience this book offers suggestions and avenues for exploration inspiration and application

of 12 schools worldwide are now evaluating how to better prepare for a disruption like the one caused by covid 19 schools were pushed into remote learning and many were not prepared for such a jump the edtech coaching primer illustrates how with effective implementation edtech coaching provides a training and support structure that can help schools transition from what was to what could be the role of the edtech coach is often misunderstood which can cause funding to be diverted and leads to those who fill these roles being asked to perform tasks that pull them away from their most impactful work supporting teachers and improving learning this book proposes a model that is both flexible in its implementation and clear in defining actionable steps so that the edtech coaching role has the greatest impact the book provides an understanding of what edtech coaches can and should be doing showing how to build a structure that allows them time and space to support teacher growth helps schools prepare to provide teachers better support in co planning co teaching modelling and coaching provides a blueprint for the role of the edtech coach for district and school leaders helping them understand how to advocate for these positions and focus the role to provide most impact features different practitioners providing their perspectives on topics like providing personalised support for teachers helping coaches identify their professional learning goals and more back cover

this book details the findings of a small scale research study on the use of real time coaching in pre service teacher education founded upon the nexus of teacher education mentoring immediate feedback teacher effectiveness technology enhanced learning and innovative approaches to developing better teaching practices the book includes a robust literature review summarizing the scholarship on coaching models used in teacher education the authors explore how real time coaching as a specific approach has the potential to address persistent problems in teacher education and early career teacher performance in the areas of teachers growth mindset teacher resilience and disjuncture in applying theory to

practice the scholarship allows readers to gain a better understanding of the history of coaching in teacher training and the capacity of real time coaching specifically in pre service teacher training told through the words of participants

this book will help you and your staff to develop a framework for continuing professional development within your school or college

coaching has become mainstream in today s society you can hire a coach for sports training sorting out your finances making career decisions or in relationships why then don t we have more coaching in education linda hopper took her 20 years of experience in business and coaching into the classroom to figure out how any teacher desiring more empowerment for students and teachers could become a teacher coach knowing that teachers have precious little time linda shares how she used lesson bites mini lessons in as little as 20 to 50 minutes a week to coach middle and high school students integrating principles of positive psychology and social emotional learning with a change in focus teacher coaches empower students with the mindsets tools and strategies to design a more meaningful life of well being bringing more relevance to learning in the classroom despite being outdated the education system today still uses a one size fitsall approach to learning that expects all students learn the same way and then evaluates progress only through standardized testing the good news is that teachers have the power to mitigate this obsolete method through coaching educators can help students and themselves design lives that bring more joy a creative use of abilities and strengths and greater freedom from stress linda hopper phd relies on over three decades of experience in business education coaching and as a parent to share insights into how the empowerment method of coaching fits into education and why teachers need to coach emotions first followed by information about the three key areas of personal development for students lesson bites from her toolbox and other

resources that help educators coach students to attain better well being through her guidance teachers will learn how to shift their perspective and empower students with the mindsets tools and strategies to create a life of purpose and meaning while bringing more relevance to learning in the classroom in this practical guide an experienced educator coach and parent offers ways to bring a greater awareness of well being into the classroom through coaching that benefits both teachers and students

coaching in education getting better results for students educators and parents will support educational organisations in learning more about the current interest in coaching approaches within schools colleges and universities with chapters on coaching in primary schools and secondary schools with students staff and parents this book provides a sound basis for introducing coaching into any educational setting this book brings together the latest national and international academic research with real case studies and a focus on practice that makes a difference for learners starting with a review of the existing literature and research into the area of coaching in education the book goes on to consider the role of coaching educational leaders coaching within the primary school setting and then secondary school settings the notion of mental toughness and its relationship to coaching is also explored the us and australian perspectives on coaching in education are discussed in two chapters written by leading experts instructional coaching in the us and the integration of positive and coaching psychology in australia

can mentoring and coaching really improve professional practice how can research and inquiry improve mentoring and coaching practice mentoring and coaching in schools explores the ways in which mentoring and coaching can be used as a dynamic collaborative process for effective professional learning it demonstrates how the use of practitioner inquiry within mentoring and coaching relationships in schools

results in professional learning which is both transformative and empowering for teachers the book sets out a new model for mentoring and coaching which is centred on a process of critical inquiry and shows teachers how they can use this model to carry out their own collaborative inquiries features include reflective questions guidelines task and templates to help collect evidence and evaluate inquiries detailed case studies focusing on teachers at different stages in their career practical guidance on carrying out practitioner inquiry and research an analysis of learning outcomes resulting from different coaching and mentoring relationships this timely text will be valuable reading for coaches and mentors in secondary schools teachers undertaking continuing professional development and students on coaching and mentoring courses

shedding new light on sport pedagogy and the teaching and coaching of games this book shows how complexity theory can be used to improve team sport performance coach education and young player development the book draws together insights from both the humanities and behavioural sciences including psychology philosophy anthropology sociology history and play theory into a new educational methodology for team sports it shows how concepts from complexity theory underpin and inform team sport dynamics including the uncontrolled nature of live human systems the nature of complex systems and how this shapes student and young athlete learning self organization and its relation to decision making in play and mental self regulation and motivation it presents an innovative and sophisticated definition of sport pedagogy that can help teachers and coaches deepen their understanding of teaching and learning in team sports and help them develop more motivated more effective and more creative athletes
