robert romanyshyn s latest book shows how the development of linear perspective vision has altered our relationship with the world and led to our increasing alienation

drawing wisdom from the zohar this short kabbalistic text redefines this legendary period of time as a window for individuals and communities to reach messiah consciousness that means it s up to people not some celestial savior to ignite global change all the natural disasters poverty revolutions anarchy are wake up calls to a fragmented humanity the end is near but as yehuda explains this really means the end of dominance of the human ego in its place we will experience the unleashing of our true selves the illuminated human soul there must be a critical mass a certain threshold of transformation to capitalize on this window and when that occurs the peoples of the world will function as one body while still appreciating our differences our collective minds have the power to bring an end to negative consciousness and birth a new existence right now

1 wall street journal bestseller in this essential book written by a rural native and silicon valley veteran microsoft s chief technology officer tackles one of the most critical issues facing society today the future of artificial intelligence and how it can be realistically used to promote growth even in a shifting employment landscape there are two prevailing stories about ai for heartland low and middle skill workers a dystopian tale of steadily increasing job destruction for urban knowledge workers and the professional class a utopian tale of enhanced productivity and convenience but there is a third way to look at this technology that will revolutionize the workplace and ultimately the world kevin scott argues that ai has the potential to create abundance and opportunity for everyone and help solve some of our most vexing problems as the chief technology officer at microsoft he is deeply involved in the development of ai applications yet mindful of their potential impact on workers knowledge he gained firsthand growing up in rural virginia yes the ai revolution will radically disrupt economics and employment for everyone for generations to come but what if leaders prioritized the programming of both future technology and public policy to work together to find solutions ahead of the coming ai epoch like public health the space program climate change and public education we need international understanding and collaboration on the future of ai and work for scott the crucial question facing all of us is this how do we work to ensure that the continued development of ai allows us to keep the american dream alive in this thoughtful informed guide he offers a clear roadmap to find the answer
