proven pathways for taking ideas to implementation we all have ideas things we want to do or create but only some of us will do what it takes to see those ideas come to pass in good idea now what readers will discover some of the essential values and principles that guide successful idea makers including the leveraging of mixed environments for creativity working through resistance and setbacks developing a practical plan for implementation that works navigating collaborative opportunities and communicating your idea to make it truly remarkable whether you re just a creative type or the leader of an organization you must figure out a creative process and develop an infrastructure for implementing your ideas good idea now what offers systematic advice for moving your ideas to execution it will show you the fundamental elements of a good idea tangible pathways to follow after initial inspiration the importance of branding and its impact on ideas practical advice for developing a loyal tribe of supporters who will take your idea to a whole new level it s not enough to be inspired learn how to follow through on your ideas and discover how great an impact you can have

ideas are products of individual human minds some of the ideas that emerge in educational cultural health related community service and faith based organizations are potentially as important to the institutions as their endowments these ideas are the concern of this guidebook how to encourage their articulation how to muster the cooperation necessary to turn them into formal blueprints and how to secure whatever support is needed to see them materialize as projects serving the interests of the originators and their institutions designed for grant seekers in the digital age this book helps readers make sense of the various printed and based resources that are available to improve the quality of proposals and find successful funding the chapters cover origins and early development of an idea drawing up a proposal finding funding sources

submitting a proposal evaluation of a project grant administration and basic resources

a brilliant analysis of the transition in world economics finance and power as the era of globalization ends and gives way to new power centers and institutions the world is at a turning point similar to the fall of communism then many focused on the collapse itself and failed to see that a bigger trend globalization was about to take hold the benefits of globalization through the freer flow of money people ideas and trade have been many but rather than a world that is flat what has emerged is one of jagged peaks and rough deep valleys characterized by wealth inequality indebtedness political recession and imbalances across the world s economies these peaks and valleys are undergoing what michael o sullivan calls the levelling a major transition in world economics finance and power what s next is a levelling out of wealth between poor and rich countries of power between nations and regions of political accountability from elites to the people and of institutional power away from central banks and defunct twentieth century institutions such as the wto and the imf o sullivan then moves to ways we can develop new pragmatic solutions to such critical problems as political discontent stunted economic growth the productive functioning of finance and political economic structures that serve broader needs the levelling comes at a crucial time in the rise and fall of nations it has special importance for the us as its place in the world undergoes radical change the ebbing of influence profound questions over its economic model societal decay and the turmoil of public life

better than best practice offers a new way of thinking about classroom practice professional development and improving teaching and learning this companion book and website together offer a selection of rich and realistic video based case studies context and narrative step by step guidance through key issues and commentary and debate from a range of expert contributors carefully chosen video clips from primary school literacy lessons show real teachers in a variety of often knotty situations classroom conversations that take unexpected turns grappling with assessment managing disagreements to name a few the book explores the educational potential of classroom talk and in particular the promise and problems of dialogic pedagogy with an emphasis on the complexity and messiness of teaching better than best practice considers how to learn from observing and discussing practice in order to develop professional judgment it offers practical advice on how to organise and facilitate video based professional development in which teachers share their practice with colleagues in order to learn from one another s challenges problems dilemmas and breakthroughs this exciting new resource argues that critical discussions of practice which highlight dilemmas instead of prescribing solutions help to develop and support thoughtful flexible and insightful practitioners an approach that is better than best practice

this accessible book provides student teachers and new teachers with a good overview of how to organise the busy primary classroom
