examines the growth and transformation of the middle east economy during the 19th and early 20th centuries the text looks at how the region s economic structures were fundamentally altered by the growing impact of european trade and finance and by the internal reforms of the rulers of egypt it also examines in detail the impact of this process on the four central areas of the middle east the result the author argues was the creation of a fixed pattern of agricultural industrial and financial activity the states formed after the collapse of the ottoman empire found that altering this pattern in their attempts to promote a less dependent form of development was fraught with difficulty and the problems they faced and their different approaches are still highly relevant to the middle east s economic development today

with editors and contributors of outstanding academic reputation this exciting new book presents an unconventional and radical perspective revealing that states do still matter

essays that examine globalization s effects with an emphasis on the interplay of race and rurality as it occurs across diverse geographies and peoples issues of migration environment rurality and the visceral politics of place and space have occupied center stage in recent electoral political struggles in the united states and europe suffused by an antiglobalization discourse that has come to resonate with euro american peoples race and rurality in the global economy suggests that this present fractious global politics begs for closer attention to be paid to the deep rooted conditions and outcomes of globalization and development from multiple viewpoints the contributors to this volume propose ways of understanding the ongoing processes of globalization that configure peoples and places via a politics of rurality in a capitalist world economy and through an optics of raciality that intersects with class gender identity land and environment in tackling the dynamics of space and place their

essays address matters such as the heightened risks and multiple states of insecurity in the global economy the new logics of expulsion and primitive accumulation dynamics shaping a new savage sorting patterns of resistance and transformation in the face of globalization s political and environmental changes the steady decline in the livelihoods of people of color globally and their deepened vulnerabilities and the complex reconstitution of systemic and lived racialization within these processes this book is an invitation to ask whether our dystopia in present politics can be disentangled from the deepening sense of white fragility in the context of the historical power of globalization s raced effects

this book provides a significant contribution to our understanding of the ottoman empire s economic history particularly through its exploration of local entrepreneurship which brings new perspectives to the economic dynamics of the region this focus adds a valuable dimension to the broader narrative of mediterranean social and economic developments from the 18th to the 20th century by emphasizing the role of both muslim and non muslim agents the work challenges more eurocentric narratives that have often influenced the historiography of economic activities in this region the inclusion of ottoman turkish and greek sources underlines the importance of accessing voices and records that have been underutilized in previous studies the fact that this project is a result of greek turkish academic cooperation is particularly noteworthy as it promotes a more nuanced and comprehensive view toward shared histories in order to shed light on complex historical phenomena this work will be of interest to scholars of ottoman and mediterranean history seeking to explore the nuances of economic and social change from within the ottoman empire it will also appeal to a wider audience interested in the history of early entrepreneurial activities and the complex interplay between cultural and economic dynamics in historical contexts

latin america s economic performance is mediocre at best despite abundant natural resources and flourishing neighbors to the north the perplexing question of how some of the wealthiest nations in the world in the nineteenth century are now the most crisis prone has long puzzled economists and historians the decline of latin american economies examines the reality behind the struggling economies of argentina chile and mexico a distinguished panel of experts argues here that slow growth rampant protectionism and rising inflation plagued latin america for years where corrupt institutions and political unrest undermined the financial outlook of already besieged economies tracing latin america s growth and decline through two centuries this volume illustrates how a once prosperous continent now lags behind of interest to scholars and policymakers alike it offers new insight into the relationship between political systems and economic development

the development and transformation of the world economy are central themes of this reference work the book discusses the historical geography of colonialism and the formation of a world economy the organization and dynamics of the contemporary world economy poverty and plenty and work and welfare in the world economy in the regional section the economic history and organization of each world region are examined in more detail with the use of specific local examples special features within each section allow for greater in depth coverage also illustrating and expanding on the introductory themes with a colorful mixture of over 270 photographs maps and diagrams this reference will provide a clear understanding of the world economy the economies of nations and regions throughout the world

reveals how global trade shaped early modern economic social and political development and inaugurated the first era of globalization

the ottoman empire is approached through analysis of its political economy based on world systems theory relations with europe constituted one of the key factors that shaped the dissolution of the ottoman empire yet a comprehensive account of the nature development and consequences of these realtions has until now never been developed this book moves beyond the narrow framework of euro ottoman relations and places europe at the center of the expanding world economy as it examines the impact of this global system on the ottoman empire its main contention is that the dissolution of the ottoman empire was the culmination of a long term process whereby the ottoman territories became integral parts of the european centered world economy and ottoman state a subordinate member of the interstate system in addition to the broad processes emanating from outside the author focuses on the transformation of the political economic and social structures in the ottoman empire the changes in processes of production networks of trade and relations among various social groups are described on the basis of archival material on western anatolia considering

world affairs and ottoman developments simultaneously makes this work unique in its field this approach captures the transformation of the ottoman empire during the nineteenth century in all its complexity in addition to providing original information about western anatolia the books also offers a general model for combining the macro concerns of historical sociology with detailed research in social history

sequel to the house of rothschild money s prophets takes the rothschild consortium from its zenith in the mid 1800s to the present day

a survey of the european economy from 1500 to 2000 it explains why europe overtook the formerly advanced eastern civilizations and how it influenced the rest of the world it also compares europe s position of world dominance in the 19th century with its vacillating fortunes in the 20th century

the empire in the city deals with the many aspects of change of urban societies in the arab provinces of the ottoman empire during the period of reforms in the 19th and early 20th centuries during this period of normative and centralizing state reforms and increasing international exchange local and global dynamics led to profound social changes this book therefore focuses on the converging trends of social and architectural interaction cities are heterogeneous structures of social organization thousands of men and women act daily in this complex system and leave their mark on the many layers the city s appearance in this sense cities provide a rich source for studies on social transformation the contributions deal with various aspects of provincial capitals and show how at different levels society architecture urban structures administration institutions etc late ottoman times were far from being a period of irreversible decline in arab provincial capitals they turn out to be times of vibrant intellectual activity intense innovation and conscious city planning direct european influence played only a very limited part much of the impetus for change and transformation came from istanbul or from the evolving local bourgeoisie this book tries to bring back the role of local societies into the historiography of the arab provinces of the ottoman empire cover

this comprehensive work provides a penetrating analysis of modern middle eastern history from the ottoman and egyptian reforms through the challenge of western imperialism to the iranian revolution and the gulf war after introducing the reader to the region s history from the origins of islam in the seventh century cleveland focuses on the past two centuries of profound and often dramatic change while built around a framework of political history the book also carefully integrates social cultural and economic developments into a single carefully crafted account the revised and updated second edition of this benchmark text includes information on the middle east since the close of the cold war and a new section on civil society and islamic politics in the 1990s
