this series is endorsed by cambridge international examinations and is part of cambridge maths this teacher s resource for stage 4 will fully support teachers to get the best from their learners and effectively use the learner s book and games book detailed lesson plans based on the course objectives are offered along with additional activity ideas teachers will be guided to formatively assess their learners understanding they will have the confidence to engage the class in mathematical discussion and encourage learners to justify answers and make connections between ideas answers to the learner s book and all photocopiable sheets required are provided all book content plus more is included on the cd for convenience

among the most debated archaeological problems is the repatriation of cultural objects that have been removed from the country of origin and then dispersed in museums around the world the need for the return of cultural objects to their homelands is not only derived from the people they belong to but also from those they appreciate their value and have archaeological interest in them however there are a number of problems revolved around most cases which prohibit the cultural repatriation to be achieved the case of the parthenon marbles is one of the best known claims for the repatriation of cultural property as its sculptures which constitute an integral part of it have been removed from the temple and are stored in different museums towards the problem of cultural repatriation parthenon marbles case study is used to research to what extent the internet can be introduced as a means of providing a form of cultural repatriation through

the idea of a virtual museum the argument is supported by the conception design and construction of a virtual museum for the parthenon marbles the web site is a pilot application implementing some sides of the temple while providing guidelines and techniques for completion of the rest the development of the web site also provided an opportunity for evaluating tools and techniques used in virtual museums finally the vr museum concept as a means of repatriation is evaluated discussing the areas where such an application would be beneficial and also the level of information that can provide for the specified repatriated object s according to specific user groups and needs
