seminar paper from the year 2010 in the subject english language and literature studies literature grade 1 3 university of bayreuth course ps whodunit language english abstract if we think about sir arthur conan doyle and his writings we automatically think about sherlock holmes but what about his partner and friend dr watson is he not as important as his famous companion maybe he does not solve the mysteries and crimes maybe he is even a little slow and featherbrained but dr watson should not be underestimated he functions as the mediator between the story and the reader speaking of a mediator implies that this instrument builds a connection between two poles in this case it is the figure of dr john hamish watson mediation occurs for example if a call center should connect two business partners without a connection both could in fact speak but would not be able to either understand or hear each other hence the question arises between which two poles dr watson is a mediator one of these poles lies similarly to dr watson within fiction

namely sherlock holmes on the other hand the second pole lies beyond fiction it is the reader or even better the readership so to speak dr watson mediates between the internal text and action and the external world and surroundings between fiction and reality first i want to analyze the relationship between watson and holmes as well as the meaning of watson within the story in a second step i will try to illuminate correlation among the reader dr watson and the surroundings
