advanced level however training and technological advancement are simply not always sufficient. Gawande's alternative and simplistic solution is based on a checklist that was originally introduced by the American Air Force. This checklist served as a guide to help pilots in maneuvering sophisticated types of aircrafts, modified into an innovative checklist that suits modern day industries and professions. It became an effective tool that equipped doctors and nurses worldwide in delivering quick, complete, and professional response to all types of accidents and calamities. Aside from the healthcare industry, Gawande's checklist eventually benefitted businesses such as skyscraper construction and investment banking, along with life-saving protocols involved in disaster response procedures. From Austria to Michigan, real-life accounts of how the checklist has been tremendously helpful are disclosed. These accounts include how an emergency checklist was a key factor in saving a drowning patient who had been submerged underwater for approximately 30 minutes, as well as how a cleanliness checklist implemented in intensive care units was instrumental in eradicating a life-threatening infection commonly contracted in hospitals. Gawande, a public health researcher, surgeon, and writer, further explains the way checklists trigger urgent and outstanding progress, especially in professions where time precision and efficiency are crucial. The struggle is over for the hardworking workforce of today's industries; the Checklist Manifesto is the perfect book for people striving to reach the level of competence needed in executing the undertakings that come with their job. Intrigued by the hidden influence that checklists possess, waste no more time and grab a copy of this book now.

invented long ago but they are still used they were created out of necessity to execute the extremely complicated process of flying military aircraft but they still have a lot of relevance and that's because checklists have evolved as well with the passing of time. Gawande with his medical experience demonstrates how even surgeons tasked to do complex surgeries use checklists to aid them during the procedure and it has reduced the rate of fatalities by more than a third. There are a lot of proofs about how influential checklists are in the modern era and in the checklist manifesto you'll learn all about it. Gawande shares with us riveting stories about the importance of checklists. Their power might shock you but they will also convince you of their utility. The checklist manifesto is an extremely informative book that will teach you the importance of checklists. An invention many people nowadays mistakenly underestimate.
