plant molecular biology is rapidly becoming an important and successful component of the

worldwide research challenge to apply basic biochemical physiological and genetic techniques for the improvement of agricultural crops this book shows how the study of fundamental plant physiological processes is being advanced through the science of genetics the author has adopted a case study approach to illustrate how defined genetic materials in mutants and plant variants are being productively used to explore photosynthesis stress tolerance seed physiology and flowering and reproductive morphology this approach also helps avoid overwhelming readers who might be unfamiliar with the enormous detail now available in this burgeoning field the case studies cover all major fields of plant physiology and are grouped in a format familiar to students of the discipline most take the form of a brief introduction followed by a discussion of the isolation and characterization of the mutants in question and then by examples of how these mutants have been used to provide physiological insights the aim is to make the information accessible to students with an elementary knowledge of plant physiology genetics and molecular biology as well as other scientists and students who wish to know more about the application of the powerful tools provided by genetics

the previous edition of this directory extended its coverage of the far east australasia and latin america areas previously under represented for this new edition emphasis has been given to increasing the number of entries for organizations from britain the united states and australia and particular attention has been paid to new political organizations in central and eastern europe and the former soviet union the number of entries included has gone up to over 68 000 of which over 9 000 are new or amended cross references from defunct organizations in the previous edition have been deleted and references indicated by ex and now added for organizations which have changed their name since the previous edition as before the range of organizations included is broad and only purely local organizations have been excluded this directory therefore lists official and unofficial organizations national and international on all subjects political economic and social acronyms of parent bodies of subsidiary organizations are given where appropriate and equivalencies are used to link acronyms in different languages for the same organization further information about the organizations listed can be found in the sources listed in the bibliography i would like to thank henry heaney and graeme mackintosh for their advice and david grinyer for his technical support I m pitman bibliography adams r ed 1993 centres bureaux a directory of uk concentrations of effort information and expertise 2nd edn cbd research beckenham barrett lk
