this book looks into the different aspects of islam and culture and how culture rather than islam is affecting muslims today it will examine the conflict between islamic values and social and culture ones how islam has always been seen as a religion of oppression and terrorism through the western eyes this book will illustrate the factors which created those stereotypes and impression about it the book frankly explores the events and life in the islamic world kuwaiti society and the wrongdoings of muslims it also finds out how muslims are influenced by the surrounding circumstance and the folklore of their ancestors whether living amongst their compatriots or expatriates the book refers to some practices of muslims briefly by extracting religious texts the quran the sunnah and the sharia and explaining the misconception of those referred texts by fanatics and very conservative muslims the book compiled information and references about different islamic topics such as social relationships jurisprudence and islam and the modern world it also explores how islam is compatible with the past present and future the intertwined conflict the reason i chose this title for my book the intertwined conflict is because of the conflict most of arab countries have when it comes to culture tradition and religion everything is embedded with islam when it has nothing to do with it its all about making islam seem to be the problem when its all about culture tradition and the wrong doings of the real means of islam people take islam as an excuse to cover up what they believe in and what they think is right so they relate it to islam fanatics mostly misunderstand islam the quran and the sunnah and tend to decipher things according to their preference matrimony and divorce vs islam marriage is the most complicated issue which is affected by traditions of the country in where one lives different countries have different interpretations of islam and marriage different tribes ethnic groups and races in a country have different interpretations of marriage in terms of marriage in islam the conjugal right is as much a womans right as it is a mans right because one of the purposes of marriage is to protect the chastity of both men and women this right is also based on the fact that if woman does not have the right to sexual intercourse it would not have been mandatory in islamic law for both spouses to insure the maximum possible self fulfillment for each other racism and islam racism in islam is forbidden and in the sight of allah no man is superior to another by color race class or ethnicity indeed all human beings are equal to allah and what distinguishes them from another is their good deeds religious commitments good manners and following and obeying the quran and the sunnah equality is one part of the targets of islam and one of its fundamental bricks equality is embedded in most of the islamic manners and rules women their role and property owning women in islam have the full right to own property and possessions money in whatever manner they prefer they do not transfer their possessions to their husbands once they

get married they get to keep their money and belongings and the husband still has to pay for her trivial expenses such as the household her children and whatever she needs as a woman not extravagantly but fairly islam and neighborhood neighborhood is one of the important things that islam exhorted us to pay attention to it is one of the things that we should not neglect taking care of your neighbor urges peace love and tolerance not only islam exhorts it but also prophet mohammed pbuh he was a good example to all of us muslims in all matters and this matter too

islam is a simple religion it requires of its followers only two things one a belief in the unity of god and two a belief in the prophethood of muhammad despite the pure and homogeneous nature of the faith the history of islam has been one of conflict the first problem islam faced was the issue of succession to the prophet from then on islam has been riven by dissent a result of the almost uninterrupted face off between islamic rulers who were usually secular and flexible in their interpretation and implementation of the rules and practices of islam and fundamentalist theologians jurists and their followers who insisted on a rigid adherence to the quran and the sunna besides a thorough analysis of this problem the author examines other issues that have led to discord the treatment of non muslims in an islamic state the power of taxation of the state the nature of punishment for certain offences mentioned in the quran and so on page 4 of cover

originally published in 1953 bridge to islam is a detailed study of the beliefs of muhammad and his followers exploring the relationship between the world of islam and that of christianity drawing attention to the common beliefs between islam and christianity the book examines the relationship between these two prominent religions and poses the argument that it is only through a proper appreciation of the differences in spiritual attitudes that a bridge of understanding and knowledge can be built between them it traces the religious histories of different countries in the middle east and assesses the position of islam and christianity in each one bridge to islam will appeal to those with an interest in the history of christianity the history of islam religious studies and the middle east
