in the latecomer s rise
muyang chen reveals the nature and impact of a rapidly growing form of international lending
chinese development finance
over the past few decades china has become the world s largest provider of bilateral development finance through its two national policy banks the china development bank cdb and the export import bank of china china exim it has funded infrastructure and industrial projects in numerous

emerging markets and developing countries yet this very surge and magnitude of capital has raised questions about the characteristics of chinese bilateral lending and its repercussions on the international order drawing on a variety of novel chinese primary sources including interviews and official bank documents chen pinpoints the distinctiveness of chinese bilateral development finance explains its origins and analyzes its effects she compares chinese policy banks with their foreign counterparts to show that the cdb and china exim while state supported are in fact also market oriented they are as much government organs as they are profit driven financial agencies that serve both state and firms interests this approach which emerged out of china s particular economic history suggests that chinese overseas lending is not merely a tool of economic statecraft that challenges western led economic regimes instead china s responses to extant rules norms and practices across given issue areas have varied between contestation and convergence rich with empirical detail and penetrating insights the latecomer s rise demystifies the little known workings of chinese development finance to revise our conceptions of china s role in the international financial system
