to understand africa one must understand nigeria and few americans
understand nigeria better than karl maier this house has fallen is
a bracing and disturbing report on the state of africa s most
populous potentially richest and most dangerously dysfunctional
nation each year with depressing consistency nigeria is declared
the most corrupt state in the entire world though nigeria is a
nation into which billions of dollars of oil money flow its per
capita income has fallen dramatically in the past two decades
military coup follows military coup a bellwether for africa it is a
country of rising ethnic tensions and falling standards of living
very possibly on the verge of utter collapse a collapse that could
dramatically overshadow even the massacres in rwanda a brilliant
piece of reportage and travel writing this house has fallen looks
into the nigerian abyss and comes away with insight profound
conclusions and even some hope updated with a new preface by the
author

nigeria is a bellwether in an enormous continent endowed with
natural resources and human capital whose development and greatness
have been marred by political instability since gaining home rule
from britain in 1960 the contemporary political economic and social
quandaries that have stultified nigeria s growth project flows from
difficulties in cultivating patriotic leaders with pluck to enact
efficacious policies that will catapult the country to greater
heights developmentally nigeria in the fourth republic confronting
the contemporary political economic and social dilemmas edited by e
ike udogu examines some of the vital issues responsible for the
current political malaise and recommends strategies for exculpating
the country from her current political quagmires the contributors
to this book argue inter alia for the avoidance of false starts
reminiscent of the military interventions that aborted the
democracy project and advocates the enactment of effective policies
to supersede decision dictated by politics this volume proposes
national healthcare strategies to address the country s healthcare
needs and for dialogue to extinguish combustible inter religious
conflicts the book recommends ways to assuage police highway
malfeasance and explains why human rights observance is critical to
further national cohesion while creating space for the subalterns
to have their voices heard in discourses on how to advance peaceful
coexistence

this book reflects on nigeria s fourth republic the country s
longest democratic period since it gained independence from great
britain it argues that although constitutional or political
democracy has lasted for over two decades in nigeria and seen three

successful democratic changes of power nigeria s democracy remains largely militarised during nigeria s fourth republic political and socio economic affairs have been increasingly dominated by a pervasive military presence and ideology which has seen a redistribution of resources and government funds away from social programmes into an increase in security budgets weapons proliferation and internal military interventions and occupations this institutionalisation of violence has turned the country into a national security state where the rule of force and violence rather than dialogue and compassion reflect everyday reality whilst acknowledging the history of militarisation during colonial and military rule this book makes a compelling argument for considering the distinct character of the nigerian nation state s path to militarisation over the last 20 years of experimentation with democracy this book s fresh insights into the fourth republic s path to militarisation will be of interest to researchers of african politics security and development

nation power and dissidence in third generation nigerian poetry in english is a theoretical and analytical survey of the poetry that emerged in nigeria in the 1980s hurt into poetry the poets collectively raise aesthetics of resistance that dramatises the nationalist imagination bridging the gap between poetry and politics in nigeria the emerging generation of poetic voices raises an outcry against the repressive military regimes of the 1980s and 1990s ingrained in the tradition of protest literature in africa the third generation poetry is presented here as part of the cultural struggles that unseat military despotism and envisage a democratic society

governance failure and corruption are increasingly identified as key causes of tropical deforestation in nigeria s edo state once the showcase of scientific forestry in west africa large scale forest conversion and the virtual depletion of timber stocks are invariably attributed to recent failures in forest management and are seen as yet another instance of how things fall apart in nigeria through an in depth historical and ethnographic study of forestry in edo state this book challenges this routine linking of political and ecological crisis narratives it shows that the roots of many of today s problems lie in scientific forest management itself rather than its recent abandonment and moreover that many illegal local practices improve rather than reduce biodiversity and forest cover the book therefore challenges preconceptions about contemporary nigeria and highlights the need to reevaluate current understandings of what constitutes good governance in tropical forestry

nigeria s leaders have tended to elect themselves by bullet and not ballot with military coup following military coup a country of rapidly rising ethnic and religious tensions and rapidly falling living standards the pressure cooker that is nigeria is building dangerously close to an explosion that would send shock waves throughout africa and beyond book jacket

the relevance of philosophy by professor sylvanus ifeanyichukwu nnoruka the relevance of philosophy defends the assertion that philosophy is not a theoretical irrelevant enterprise philosophy is relevant to life and this book makes use of phenomenological and hermeneutical methods to offer solutions to the social political and economic problems in africa specifically nigeria with regard to nigeria many are of the opinion that the problem is simply and uniquely that of leadership others think it is ethnicity while some opine that it is lack of authentic education method the articles in the book tackle these and other relevant problems the authors recommend this book to all nigerians and indeed every african the authors believe it is not enough to keep bemoaning the regrettable events of the past which have crippled africa s development rather through critical reasoning they aim to generate unique solutions to nigeria s problems

a definitive one volume guide to all sub saharan african countries providing invaluable economic and directory data

south africa s drum magazine was internationally famous as recording through photographs the history and events of a turbulent country jim bailey was however often on the spot in other african countries too here the story of nigeria is told from the photographic records of drum presenting an african view of contemporary history the large format volumes are both a wealth of information and accessible history and a unique photographic resource the diverse and turbulent events and the numerous complex characters who occupied the centre stage in the epic drama that was the evolution of the nigerian state are reported with passion and mission in the several editions which were compiled to make up this two volume text all the stars of political history are vividly recorded also prominently featured copiously illustrated with historic photographs are social issues of sports secret cults ritual murder entertainment the arts religion juju the 1996 coup and the civil war

the balance of power between an individual and the state they live in is the key to any country s political process concepts of citizenship reciprocity of rights and citizen s duties intertwine in the struggle for assertion with its largely collective citizenship the civil society in africa is alive and vibrant but in the face of continuing global recession the present phase of the african crisis is expected to sharpen contradictions within the continent s states new paradigms have to be sought to explain the formations and realities the ten chapters in this book all written by african scholars question the western ethnocentric model of development and look at the wide diversity of african experience from the ormo cosmic framework and street begging in nigeria through the role of labour and the part played by wage demands in the african crisis this volume is a major contribution to the debate on africa s future
