chloe has an epiphany we need to evolve as a species if we re ever going to keep from destroying the planet and ourselves and the only time we can mutate is when we re not bogged down in nostalgia or regret mired in hope or fear of an imaginary future or fixating on now she understands that when we re outside of time we re open to change and orgasm is the most powerful natural moment we can be free of yesterday tomorrow and even today chloe sees the corporate world as needing this taste of freedom most and she goes from office to office from city to city across america offering her insight to as many as possible one person at a time because she says if there s one thing we ve learned online it s that every little bit counts no pun intended and yet while orgasm can open us up to mutation situationalism is the way to continue to be open in our daily lives 2 500 years ago heraclitus proposed you could never cross the same river twice because it s never exactly the same river and you re never exactly the same person the world is never identical to a second ago or 100 years ago and cyberspace is the optimal proving ground for situationlism with experience increasing delivered in an endless torrent of easily digestible bytes every moment is a new situation and everything goes swimmingly for chloe until one day when her methods completely backfire
