architectural historian etlin defines the main principles of progressive 19th century architectural thought the architectural system the picturesque philosophical eclecticism and the spirit of the times these principles are explored in detail in relation to 19th and 20th century architecture and also to demonstrate their importance to the work of wright and le corbusier illustrated with drawings and photos distributed by st martin s press annotation copyrighted by book news inc portland or

the story of modern architecture is told here through the lives and works of three men who changed the face of the cities we live in le corbusier gave to modern design a sure and brilliant sense of form mies brought an almost gothic discipline of structure and wright heralded a new and dramatic concept of space and freedom through this triple focus peter blake provides a perspective on the entire range of twentieth century architecture

discusses the founding of modern architecture through the lives and works of four important architects

the utopian visions of three of urban planning's greatest visionaries Ebenezer Howard Frank Lloyd Wright and Le Corbusier hated the cities of their time with an overwhelming passion the metropolis was the counter image of their ideal cities the hell that inspired their heavens in this book Robert Fishman examines the utopian visions of three of urban planning's greatest visionaries Howard created the concept of the garden city where shops and cottages formed the center of a geometric pattern with farmland surrounding Wright conceived of Broadacre City the ultimate suburb where the automobile was king and Le Corbusier imagined Ville Radieuse the city of cruciform skyscrapers set down in open parkland

a chronicle of modern architecture and three creative designers whose work has set the tone for the character of the modern city

this volume begins with the exciting new contribution of three previously unpublished lectures the young Wright delivered to Chicago audiences as he expounded his basic philosophy of architecture and ends with his famed Kahn lectures given at Princeton University in 1930 110 illustrations 50 in color

featuring over 100 of the most significant and influential houses of the twentieth century for each of the houses included there are numerous accurate scale plans showing each floor together with elevations sections and site plans where appropriate all of these have been specially drawn for this book and are based on the most up to date information and sources

Frank Lloyd Wright le plus emblématique des architectes américains et peut être le plus célèbre du XX^e siècle a eu une immense influence sur l'architecture moderne aux États-Unis comme dans le reste du monde ses constructions résidentielles en particulier ont passionné et suscité la controverse cet ouvrage présente pour la première fois ses 291 maisons encore visibles mises en scène par les magnifiques photos en couleur d'Alan Weintraub des textes lumineux d'Alan Hess et une sélection de plans et d'images d'archives accompagnent cette iconographie exceptionnelle ce livre comprend aussi des essais écrits par les meilleurs spécialistes de Wright et de l'histoire de l'architecture parmi lesquels Kenneth Frampton Thomas S. Hines Bruce Brooks Pfeiffer Kathryn Smith Margo Stipe et Eric Lloyd Wright

shows the floor plans and designs for homes banks public buildings and furniture created by Wright and other members of the Prairie School

three cultural ecologies reverses common conceptions of modern architecture it reveals how selected works of two modern architects Le Corbusier and Frank Lloyd Wright embraced environmental and cultural conditions as reciprocal and complementary a basic premise of this book's arguments is that cultural patterns cannot be adequately conceptualized in the terms that typically define ecology today instead studies based on the natural sciences must be complemented by descriptions and interpretations of historical narratives cultural norms and individual expressions previously unpublished images and new interpretations will allow readers to rediscover works they thought they knew Villa Savoye Taliesin La Tourette and Ocatilla as well as projects that are less well known by Wright the house on the mesa and the city residential plan and by Le Corbusier the immeuble villas and îlot insalubre projects more broadly this study of cultural ecology at three scales domestic monastic and urban reconsiders

the history of modern architecture the conditions brought about by societal and technological modernization and confronted by modern architecture have not disappeared in our time but have intensified making the task of imagining how some measure of equilibrium between culture and ecology might be achieved even more pressing

this is a brilliant provocative long essay on the rise and fall and survival of modernism by the english languages greatest living cultural historian

rich learned briskly written maddening yet necessary study lee siegel new york times book review peter gay explores the shocking modernist rebellion that beginning in the 1840s transformed art literature music and film modernism presents a thrilling pageant of heretics that includes oscar wilde pablo picasso d w griffiths james joyce virginia woolf t s eliot walter gropius arnold schoenberg and of course andy warhol
