alpine skiing or downhill skiing is defined by six disciplines downhill super g giant slalom slalom parallel and combined that test the athletes technical abilities and speed it has long been a popular sport with many national and international championships and is a mainstay of the winter olympic games the science of alpine ski racing is the first book to discuss the science coaching research and training of elite to recreational alpine ski racers for optimal performance this book brings together the complex physiological biomechanical and technical components of the sport in a practical manner with which coaches and researchers alike can adopt to elicit better performance outcomes for athletes literature of this kind has never been formally researched and published specifically for the sport of alpine ski racing making it both unique and a cornerstone to the discipline backed by cutting edge research the book provides practical guidance on preparing athletes for high performance and understanding the core tenets of sports science underpinning it striking a balance between the complex theoretical and practical components coaches and athletes must prepare for in alpine ski racing accessibly written and featuring contributions from world leading experts the science of alpine ski racing covers key topics of health training and high performance in the sport and will be vital reading for youth coaches professional ski instructors strength and conditioning coaches and sports science staff associated with winter sports programs as well as applied researchers looking for a model to apply to other sports james jimmy pritchard is a human

performance specialist sports scientist who has trained and consulted athletes at the olympic nhl nfl and division i collegiate level specific to alpine ski racing he served as the director of strength and conditioning for ski and snowboard club vail in vail colorado where he helped prepare a long list of us ski team athletes including alice mckennis mikaela shiffrin and tess johnson he is a certified strength and conditioning specialist cscs as well as registered strength and conditioning coach rscs through the nsca working with athletes and human performance program managers on a regular basis to find optimal human performance solutions james has presented at conferences around the united states discussing long term athlete development written over 150 articles for several media outlets has been published in the nsca s strength and conditioning journal and taught courses about strength and conditioning at colorado mountain college james holds a bsc in exercise science from colorado mesa university and msc degree in exercise science from edith cowan university jim taylor phd psychology is an internationally recognized authority on the psychology of sport and parenting he has consulted with athletes coaches and parents in tennis skiing cycling triathlon track and field swimming football golf baseball fencing and many other sports for more than 30 years dr taylor is the author of 17 books and the editor of 4 textbooks on sport psychology he is also a former world ranked alpine ski racer second degree black belt in karate marathon runner and ironman triathlete

an eye opening 2022 gallup poll shows that a majority 55 of american parents are somewhat to completely dissatisfied with the schools their children attend meanwhile a 2022 cdc survey of 7 705 high school students found that 44 of them described persistent feelings of sadness or hopelessness with 9 admitting to having made an attempt at suicide after 45 years of teaching kids and leading schools malcolm gauld offers a blunt explanation of how we got here we care more about what they can do than about who they are and they know it the solution lies in a reordering of priorities where our schools come to value attitude over aptitude effort over ability and character over talent this book offers a blueprint for how to do that the first step in enacting this shift calls upon school leaders to look deeply and honestly at the quality of the cultures in their schools the author pointedly observes every school has a culture is yours by design or default after a thorough exploration of the nature of culture the author introduces and describes a dynamic school culture improvement program called the discovery process explaining how it has been

implemented in both public and private schools the program aligned with national social and emotional learning standards is presented as a concrete approach to culture by design

for reference librarians and researchers seeking information on sports and fitness this guide is an important first stop for collection development specialists it is an invaluable selection guide allen describes and evaluates over 1 000 information sources on the complete spectrum of sports from basketball football and hockey to figure skating table tennis and weight training focusing on english language works published between 1990 and the present the guide thoroughly covers traditional reference sources such as encyclopedias and bibliographies along with instructional sources in print formats online databases and sites to enable users in search of information on specific sports or fitness activities chapters are organized thematically according to broad type aquatic sports nautical sports precision and accuracy racket sports ice and snow sports ball sports cycling and so on with subcategories for such individual sports as soccer golf and yoga within these categories works are further organized by type reference instructional and sites
