northeast india is a rich zone of ethnic and cultural diversity in assam the karbis are numerically third highest tribal group however very few systematic anthropological researches have been conducted on their indigenous knowledge and perspectives of ethno ecology it can be noted that the karbis have their own identical cultural practices and social customs with their unique ethno ecological approach primarily they are dwelling in the karbi anglong district of assam the said district is geographically in a very strategic location in the hinterland of nagaland meghalaya state and nagaon district of assam the present book is an attempt to have a detailed account on the little known karbi tribal group of northeast india from their ethno ecological perspectives the book has focused primarily on the issues related to their origin and ethnic distribution society culture traditional economic organization religious beliefs and practices material culture as a whole the present book is the first ethno ecological approach on the karbis from anthropological perspective

given the fact that there are perhaps 400 billion stars in our galaxy alone and perhaps 400 billion galaxies in the universe it stands to reason that somewhere out there in the 14 billion year old cosmos there is or once was a civilization at least as advanced as our own the sheer enormity of the numbers almost demands that we accept the truth of this hypothesis why then have we encountered no evidence no messages no artifacts of these extraterrestrials in this second significantly revised and expanded edition of his widely popular book webb discusses in detail the for now 75 most cogent and intriguing solutions to fermi s famous paradox if the numbers strongly point to the existence of extraterrestrial civilizations why have we found no evidence of them reviews from the first edition amidst the plethora of books that treat the possibility of extraterrestrial intelligence this one by webb is outstanding each solution is presented in a very logical interesting thorough manner with accompanying explanations and notes that the intelligent layperson can understand webb digs into the issues by considering a very broad set of in depth solutions that he addresses through an interesting and challenging mode of presentation that stretches the mind an excellent book for anyone who has ever asked are we alone w e howard iii choice march 2003 fifty ideas are presented that reveal a clearly reasoned examination of what is known as the fermi paradox for anyone who enjoys a good detective story

or using their thinking faculties and stretching the imagination to the limits where is everybody will be enormously informative and entertaining read this book and whatever your views are about life elsewhere in the universe your appreciation for how special life is here on earth will be enhanced a worthy addition to any personal library philip bridge bbc radio march 2003 since gaining a bsc in physics from the university of bristol and a phd in theoretical physics from the university of manchester stephen webb has worked in a variety of universities in the uk he is a regular contributor to the yearbook of astronomy series and has published an undergraduate textbook on distance determination in astronomy and cosmology as well as several popular science books his interest in the fermi paradox combines lifelong interests in both science and science fiction

a simple account of the world history glimpses of the world history is an account of the progress of the world through centuries and ages this book is a collection of letters that jawaharlal nehru wrote to his daughter indira when he was in various indian prisons for three years the letters were meant to introduce her to the world and its history in the first few letters nehru expresses his sadness for not being able to be around his daughter and give her the materialistic gifts that other parents could but he promises to give her a gift that he could afford in the form of knowledge and wisdom through words that come from the very core of his heart nehru wrote 196 letters and covered the history of mankind from 6000 bc to the time he was writing the letters tales of empires a major part of these letters talks extensively about the rise and fall of empires around the world and development of civilizations as well nehru talks about the histories of every significant place ranging from greece in the far west to china in the east the book talks about the wars that were fought during these years and the greatest revolutions that overthrew established dynasties nehru has also written about the legendary leaders and kings who have walked the earth including right from alexander the great to mahatma gandhi a different view unlike many other books that talk more or less about particular history of specific cultures this book is a panoramic view of the history of mankind it talks about the barbarians as well as the well behaved societies in the far west nehru has written this book with lot of wit which makes it an interesting read

this book defines china s road towards modernization with chinese characteristics by systematically examining a typical chinese political

process the national congress of the communist party of china cpc during which diverse opinions are collected and a unified political consensus is formed the author provides a detailed introduction to the background of and preparations for the 18th national congress of cpc as well as his personal experience of it as an attending representative in addition the book addresses a key problem namely how china s leadership handover procedure gradually evolved into the current collective handover procedure by analyzing its developmental history the question of how to implement china s leadership handover is particularly meaningful as it reflects the development of china s political system and is also essential to the cpc flourishing and china s long term prosperity the author s personal experiences at the 18th national congress made it possible to fully investigate the leadership handover procedure between hu jintao and xi Jinping lastly the book provides a detailed description of one highlight of the 18th cpc national congress the focus on ecological culture and green development and discusses china s dream and its implications for history and the world

this work covers topics related to the exercise of influence by individuals and groups within organizations it includes an introductory group of articles dealing with the nature of influence processes and power with more than two thirds fresh material this new updated edition of organizational influence processes provides an overview of the most important scholarly work on topics related to the exercise of influence by individuals and groups within organizations in selecting articles for inclusion the editors were guided by the conviction that the most useful and interesting way to view organizational influence is to take a directional approach that is to consider the process from the perspective of downward lateral and upward influence they have organized the readings around this framework preceded by an introductory group of articles dealing more generally with the nature of influence processes and power the book includes both classic readings and the latest cutting edge research from some of the most respected experts writing in the field it will be equally useful for any upper level undergraduate or graduate course concerned with organizational behavior group behavior leadership or power and politics

indexes kept up to date with supplements
